The Fourteen Ideas

Beauty	Courage
Equity	Freedom
Goodness	Grace
Immortality	Hope
Justice	Truth
Virtue	Wisdom
Glory & Honor	Change

In his historic work, *The Great Ideas*, Mortimer Adler discusses the importance of relating themes of literature to the great ideas and philosophies of Western culture. In order for a reader to comprehend cultural progression and the progression of history, the reader must understand the great ideas behind the stories of literature as well as the motivation for events of history. By supplying a reader with a universal idea such as beauty, truth, or goodness, the writer of a study guide facilitates the reader's understanding of the author's purpose in writing.

In Creation God's declaration of "It is good" is more than a conclusion for His completion of the work of the day. This declarative statement, seen in the terms of goodness and completion. Man, with this phrase in his mind, was expected to judge his own creations by the judgment God pronounced on His own creation. For a man to declare his own work to be good, it must follow the criteria and standards of the Creator in the beginning. Likewise, the reader is asked to find the phrase in each standard by each author in each work that is read.

One advantage of a Great Books reading program is to train the mind of the reader to conform not only to the mind of the writer, but also to the mind of God by comparing the Great Ideas and themes of Western literature to the Great Ideas and themes of the Creator of the Universe and Author of the Bible.

For the sake of brevity, we have selected 14 ideas in which to focus our study.

About the Book

Many people consider *Gulliver's Travels* Jonathan Swift's greatest masterpiece. Originally published under the title *Travels into the Several Remote Nations of the World* and under a pseudonym, *Gulliver's Travels*, comprised of four shorter books, details the voyages of Lemuel Gulliver, the tale's narrator and hero. Each book begins with a new voyage and finds Gulliver shipwrecked or cast onto a strange land.

Each strange land is comprised of natives who are much unlike him. Gulliver's travels find him a captive prisoner of six-inch high people who dub him Man-Mountain. Events unfold and a plot to charge him with treason is discovered, leaving Gulliver planning an escape from the island. Longing for more adventure, in Book Two he sets out on another journey and finds himself stuck on another island. This time, however, the people are giants. His small stature exposes him to many dangers. These first two adventures show Gulliver two very different perspectives on people from two different points-of-view.

Drawn to the sea for more voyages, Books Three and Four bring Gulliver to even stranger islands. First, he finds himself on a floating island with people

whose minds are full of their own thoughts, constantly figuring problems and worrying. Lastly, he lands on an island ruled by horses. He is forced to leave this last island, which he does reluctantly.

Full of lessons, dangers, and new friends, he finds it easy to leave each new island because he is not home. Gulliver finds his way home to his wife and children, but feels like a stranger in his own home. His restless nature causes him to set sail again; nonetheless, his final adventure promises to change him.

It is enough to know that my plan was to travel, and at the age of twenty-two, I left for sea.
