The Ransomware Hunting Team Renee Dudley, Daniel Golden, 2022-10-25 A real life technological thriller about a band of eccentric misfits taking on the biggest cybersecurity threats of our time What Michael Lewis did for baseball in *Moneyball* Renee Dudley and Daniel Golden do brilliantly for the world of ransomware and hackers Cinematic big in scope and meticulously reported this book is impossible to put down Doug Stanton New York Times bestselling author of *In Harm's Way* and *Horse Soldiers* Scattered across the world an elite team of code crackers is working tirelessly to thwart the defining cyber scourge of our time You've probably never heard of them But if you work for a school a business a hospital or a municipal government or simply cherish your digital data you may be painfully familiar with the team's sworn enemy ransomware Again and again an unlikely band of misfits mostly self-taught and often struggling to make ends meet have outwitted the underworld of hackers who lock computer networks and demand huge payments in return for the keys The Ransomware Hunting Team traces the adventures of these unassuming heroes and how they have used their skills to save millions of ransomware victims from paying billions of dollars to criminals Working tirelessly from bedrooms and back offices and refusing payment they've rescued those whom the often hapless FBI has been unwilling or unable to help Foremost among them is Michael Gillespie a cancer survivor and cat lover who got his start cracking ransomware while working at a Nerds on Call store in the town of Normal Illinois Other teammates include the brilliant reclusive Fabian Wosar a high school dropout from Germany who enjoys bantering with the attackers he foils and his protégé the British computer science prodigy Sarah White Together they have established themselves as the most effective force against an escalating global threat This book follows them as they put their health personal relationships and financial security on the line to navigate the technological and moral challenges of combating digital hostage taking Urgent uplifting and entertaining Renee Dudley and Daniel Golden's *The Ransomware Hunting Team* is a real life technological thriller that illuminates a dangerous new era of cybercrime

School Libraries in a Time of Change Kathleen W. Craver, 2019-08-01 By becoming practical futurists school librarians can help their libraries not only to survive sweeping changes in education but to thrive This book shows how to spot technological trends and use them to your library's advantage During this time of rapid modernization of technology and educational reform this book is a must read for school librarians tasked with ensuring their libraries meet evolving standards This title provides the research and organizational techniques and skills they need to gain seats at the table of the three power committees technology curricula and strategic planning School librarians need to collect and publicize national and local school based evidence that shows the positive correlations between school librarians and student achievement Craver notes correlative sources and provides ideas to employ them to ensure that school librarians remain indispensable In addition acquiring technological skills and becoming expert at their application are paramount for librarians Even more important is the need for librarians to assume sole responsibility for designing and integrating information literacy and critical thinking

skills throughout the curriculum Craver analyzes studies that show students inability to discern fact from fiction ads from news and information bias in electronic information sources and recommends six actions that school librarians take to ensure that they become active participants in their future rather than its victims

The Anarchist in the Library Siva Vaidhyanathan,2005-05-11 From Napster to Total Information Awareness to flash mobs the debate over information technology in our lives has revolved around a single question How closely do we want cyberspace to resemble the real world Siva Vaidhyanathan enters this debate with a seminal insight While we ve been busy debating how to make cyberspace imitate the world the world has been busy imitating cyberspace More and more of our social political and religious activities are modeling themselves after the World Wide Web Vaidhyanathan tells us the key information structure of our time and the key import from cyberspace into the world is the peer to peer network Peer to peer networks have always existed but with the rise of electronic communication they are suddenly coming into their own And they are drawing the outlines of a battle for information that will determine much of the culture and politics of our century affecting everything from society to terrorism from religion to the latest social fads The Anarchist in the Library is a radically original look at how this battle defines one of the major fault lines of twenty first century civilization
