*When Worlds Collide* Mike Blackaby, Daniel Blackaby, 2011-05-04 The media driven world places enormous pressure on people to conform to its secular point of view and young people are especially susceptible to this ploy Writing to a student audience authors Mike and Daniel Blackaby the grandsons of Experiencing God author Henry Blackaby explain how Christians typically respond to this pressure in one of three ways

assigning names for each group Cave Ins are Christians who accept the world's values and compromise their faith or abandon it altogether Cave Dwellers are believers who fear the world and seek to insulate themselves from it and its influence as much as possible Colliders are the Christians who remain true to their faith yet effectively engage the world and are used by God to change people's lives When Worlds Collide is the Blackaby's case for becoming a Collider In chapters packed with story based devotional thoughts plenty of humor and easy steps for application they prove it's possible to live an authentic Christian life that meets the world head on without spiritual compromise

James Gibson, Humberto M. Rasi, 2011-01 Understanding Creation articulates twenty questions about faith and science that Christians often encounter The co editors have assembled an international group of experienced scientists researchers and thinkers who provide thoughtful answers to these questions They all share several convictions the biblical record is an essential component of Christian doctrine Christian faith and empirical science can work fruitfully together and our comprehension of truth is progressive [Something from Nothing](#) Kurt P. Wise, Sheila A. Richardson, 2004 Did a thoughtful creator speak the whole universe into existence What is the age of the universe Most Christian students today are familiar with Bible stories but don't have a clue how to combat the prevailing anti Christian philosophies Beginning with God and His Word as the standard Something from Nothing demonstrates how the biblical witness teaches that the age of the universe is not as old as other theories contend The authors stress the purpose of origins study as an approach to knowing God in a deeper way Something from Nothing also demonstrates how all issues raised by evolutionists can be answered not only by the Bible but also by

scientific data and research

**The Ultimate Proof of Creation** Dr. Jason Lisle, 2009-06-01 It's a bold title The Ultimate Proof of Creation But is there such a thing There are many books that contain seemingly powerful arguments for biblical creation But is there an ultimate proof of creation There is an argument for creation that is powerful conclusive and has no true rebuttal As such it is an irrefutable argument an ultimate proof of the Christian worldview biblical creation Master the method outlined in the following chapters and you will be able to defend Christianity against all opposition Learn how to apply the ultimate proof in dialogues with evolutionists how to spot logical fallacies and biblical examples of defending the faith Discover the nature of scientific evidence and its proper role in the origins debate Details how to address theistic evolution day age creationism and other compromised positions of biblical creationism An exceptional book for pastors ministry leaders seminary attendees and students of religion and philosophy This book is a complete guide to defending the Christian faith emphasizing the defense of the Genesis account of creation built on techniques that have been developed over many years and presentations They are not difficult to apply when you learn how to do it properly Ready to move beyond the circular arguments It is time to get to the real heart of the issue and rationally resolve the origins debate It is time to discover The Ultimate Proof of Creation

**Beyond the Firmament** Gordon J. Glover, 2007 As debates within the Church over the scientific details of creation become more frequent the experts seem to grow more entrenched while the rest of us only become more confused Somewhere between the endless arguments over distant starlight and Carbon 14 dating calculating the mathematical improbabilities of things that already exist and parsing ancient Hebrew and Greek somebody needs to ask the simple question If 3 500 years of scientific progress can't help modern Christians figure out Genesis then how could the ancient Israelites possibly have understood it so well What secret did this newly liberated gaggle of Hebrew nomads take with them out of Egypt that holds the key to understanding God's telling of His own creation story Beyond the Firmament challenges all creationist camps whether Young Earth Old Earth or Theistic Evolutionist to step outside of traditional paradigms and recognize how our modern Western post Enlightenment scientific worldview actually blinds us from seeing the simple truth of Creation as it was originally intended and how our failure to grasp the theological significance of the Biblical creation model puts science and faith on a collision course

*Guide to Creation* Institute for Creation Research, 2016-01-01 When you look at the marvels of Earth and outer space have you ever wondered How did this all come about And that leads to that ultimate question Why are we here Guide to Creation is a fascinating survey that explores these questions and more Why is our world so perfectly fit for life yet still full

of imperfections What best explains the precision and consistency in the laws of science How should we handle the times when science and the Bible seem to disagree This book will take you on an incredible journey for the answers which can be found all around us in things as tiny as cells to as large as superstars Along the way you ll learn what both science and the Bible say A wealth of discoveries await you *Creation: A Guide for the Perplexed* Simon Oliver,2017-06-29 This addition to our popular Guides for the Perplexed series tackles a subject that is enjoying renewed debate Christianity along with Judaism and Islam claims that the universe is not a brute fact It is created But what do we mean by creation Do we mean that the universe is designed Is it the product of an evolutionary process How are creatures related to God and does God act within creation Simon Oliver begins with the background to the Christian theology of creation in Greek philosophy and the Old Testament This provides a route into understanding the claim that we are part of a created order that is also the theatre of God s providential action He examines different understandings of creation including creation out of nothing and the analogy of being with close reference to the work of patristic and medieval theologians such as Augustine and Thomas Aquinas This leads to an historical overview of the relationship between theological philosophical and scientific approaches to creation in the modern period Some of the ethical issues concerning humanity s place within and treatment of creation and our environment are also examined A distinctive yet traditional theology of creation is proposed focused on the concepts of gift and participation as ways of understanding more fully the meaning and implications of the claim that the universe is created

*The Battle for the Beginning* John F. MacArthur,2005-03-20 The battle lines have been drawn Is the enemy winning Thanks to the theory of evolution writes best selling author John MacArthur naturalism is now the dominant religion of modern society Less than a century and a half ago Charles Darwin popularized the credo for this secular religion Naturalism has now replaced Christianity as the main religion of the Western world and evolution has become its principal dogma Many Christians who claim to believe that the Bible is God s revealed truth seem willing to allow modern scientific theories to replace the Genesis account of creation Such compromises present a conspicuous danger Bible teacher and pastor John MacArthur believes that in Genesis 1-3 we find the foundation of every doctrine that is essential to the Christian faith the vital underpinnings for everything we believe *The Battle for the Beginning* draws a clear line on today s theological landscape Everything in Scripture that teaches about sin and redemption assumes the literal truth of the first three chapters of Genesis If we wobble to any degree on the truth of this passage John MacArthur insists we undermine the very foundations of our faith

**Creation and New Creation** Sean M McDonough,2016-04-01 In keeping with the Scriptural witness and the theological heritage this remarkable book examines the doctrine of creation alongside new creation The connection between the two creation and new creation has drawn renewed attention in the last several decades but the burden of Sean McDonough s argument is that this emphasis on creation and new creation has been a feature of the doctrine since the beginning whether in the eschatological reading of Genesis 1 that predominated at least until early modern times or the

intertwining of the narratives of creation and redemption in thinkers from Irenaeus to Barth Whilst covering the traditional elements of the doctrine McDonough treats the important subject with a special emphasis on how these unfold in the story of what Gunton has called God's creation project
