  - Send Queue

The Ioline 601 Software will convert and send Gerber HPGL output files to Ioline apparel plotters. Users of Gerber Accumark design systems can now create markers with familiar software but use Ioline apparel plotters for marker output. The 601 software can also convert HPGL output from programs like Nester and CorelDraw.

*System requirements:* Windows 95/98/NT, 11 MB of hard disk space, and an Ioline apparel plotter connected to a communication port.

## Installation

### • *Install 601*

1. Close all other applications prior to installation.
2. Insert the 601 CD-ROM into the computer CD-ROM drive.
3. The installation should start automatically. If it does not, go to the Start Menu, and click on Run. Browse the CD-ROM drive (usually D:\), and select Setup\_p.exe. Click on Open, then Run.

Figure A

**Hint:** The *Ioline Control Center* is a software program that adjusts plotter settings to optimize performance. See the plotter user guide for information about the *Control Center*.

4. Follow the self-guided installation procedure. The default settings are acceptable for most users. Ioline recommends that you install the Control Center along with the 601 software. Figure A.
