Windows of Opportunity Miriam J. Anderson,2015-12-01 In 1915 women from over thirty countries met in The Hague

to express opposition to World War I and propose ways to end it The delegates made three demands for women to be present at all international peace conferences a women s only peace conference to be convened alongside any official negotiations and the establishment of universal suffrage While these demands went unmet at the time contemporary women s groups continue to seek participation in peace negotiations and to have language promoting gender equality inserted into all peace agreements Between 1975 and 2011 about 40% of all conflicts that produced peace agreements resulted in at least one with references to women Many of these clauses addressed compensation for wartime gender based violence and guarantees for women s participation in the post conflict transitional period Others included electoral quotas and changes to inheritance legislation Curiously the language used to address women is near consistent across these agreements and that is because it reflects international women s rights norms rather than more local norms Why is it that though a peace agreement s primary objective is to end conflict some include potentially controversial provisions about gender that might delay or complicate reaching an agreement Why do these provisions echo international norms rather than local cultural ones And which factors make it more likely that women s rights will appear in peace agreements Windows of Opportunity answers these questions by examining peace negotiations in Burundi Macedonia and Northern Ireland along with 195 peace agreements signed between 1975 and 2011 It looks at the key actors involved in lobbying for women s participation along with their motivations objectives and strategies It also explores the reasons for similarities among the gender provisions

emerging Digital Era ON was based on the ancient traditional script governing how women men children ought to behave within the spheres of genders marriages families relationships sexualities Over the centuries ON eventually modified into the familiar 1950s style nuclear patriarchal cisgender husband wife with children and family And now that style itself is fading away into NN NN is based not on script but on improvisation it is essentially a continual work in progress To make it function the partners engage in ongoing negotiation governed by the principle that everything is negotiable except the principle that everything is negotiable NN has thus far been pursued most frequently by persons New Lights who are educated and relatively advantaged ON has been pursued mostly by persons Old Lights who are less educated and relatively less advantaged ON is also strongly embraced by persons of a traditional religious bent persons who tend to be rigid and unbending in their religious views Currently they tend to be extremely right wing evangelicals and extremely right wing Catholics Importantly their political clout far exceeds their relatively modest numbers within the larger population In brief the shift from ON to NN is a move away from the sanctity of a particular structure to the primacy of persons engaged in ongoing processes of inventing and reinventing certain arrangements of genders marriages families relationships sexualities enabling them to fulfil their needs for primary intrinsic emotional satisfactions such as liking loving empathy companionship sexual and so forth Among other things this shift replaces the preeminence of the historic binary or cisgender approach heterosexual legal children and so on in favor of the diversity variety multiplicity approach which incorporates under one conceptual umbrella all persons of whatever genders sexualities and so on All persons are thus engaged in a common struggle to achieve personal satisfactions as well as contribute to the Greater Good
