Ib Mathematics Methods Companion Guide:

Landmark Writings in Western Mathematics 1640-1940 Ivor Grattan-Guinness, 2005-02-11 This book contains around 80 articles on major writings in mathematics published between 1640 and 1940 All aspects of mathematics are covered pure and applied probability and statistics foundations and philosophy Sometimes two writings from the same period and the same subject are taken together The biography of the author s is recorded and the circumstances of the preparation of the writing are given When the writing is of some lengths an analytical table of its contents is supplied The contents of the writing is reviewed and its impact described at least for the immediate decades Each article ends with a bibliography of primary and secondary items First book of its kind Covers the period 1640 1940 of massive development in mathematics Describes many of the main writings of mathematics Articles written by specialists in their field *Geometry and Experimental Method in Locke, Newton and Kant* Mary Domski, 2003 *The Art of Science* Rossella Lupacchini, Annarita Angelini, 2014-07-22 In addition to linear perspective complex numbers and probability were notable discoveries of the Renaissance While the power of perspective which transformed Renaissance art was quickly recognized the scientific establishment treated both complex numbers and probability with much suspicion It was only in the twentieth century that quantum theory showed how probability might be molded from complex numbers and defined the notion of complex probability amplitude From a theoretical point of view however the space opened to painting by linear perspective and that opened to science by complex numbers share significant characteristics The Art of Science explores this shared field with the purpose of extending Leonardo s vision of painting to issues of mathematics and encouraging the reader to see science as an art The intention is to restore a visual dimension to mathematical sciences an element dulled if not obscured by historians philosophers and scientists themselves Books in Print Supplement ,1994 **Catalogue of the library of the Royal Astronomical Society, etc. [By J.
