

5 Mathematical Studies SL Internal Assessment Criteria (May 2006 onwards)

	Criterion A: Introduction	Criterion B: Information/Measurement	Criterion C: Mathematical processes	Criterion D: Interpretation of results	Criterion E: Validity	Criterion F: Structure and communication
0	The student does not produce a clear statement of the task.	The student does not collect relevant information or generate relevant measurements.	The student does not attempt to carry out any mathematical processes.	The student does not produce any interpretations or conclusions.	The student does not comment on the mathematical processes used or the interpretations/conclusions made.	The student has made no attempt to structure the project.
1	The student produces a clear statement of the task.	The student collects relevant information or generates relevant measurements.	The student carries out simple mathematical processes.	The student produces at least one interpretation or conclusion.	The student has made an attempt to comment on either the mathematical processes used or the interpretations/conclusions made.	The student has made some attempt to structure the project or has used appropriate notation and terminology.
2	The student produces a title, a clear statement of the task and a clear description of the plan.	The relevant information collected, or set of measurements generated by the student, is organized in a form appropriate for analysis or is sufficient in both quality and quantity.	The simple mathematical processes are mostly or completely correct, or the student makes an attempt to use at least one sophisticated process.	The student produces at least one interpretation and/or conclusion that is consistent with the mathematical processes used.	The student has made a serious attempt to comment on both the mathematical processes used and the interpretations/conclusions made.	The student has made some attempt to structure the project and has used appropriate notation and terminology.
3		The relevant information collected, or set of measurements generated by the student, is organized in a form appropriate for analysis and is sufficient in both quality and quantity.	The student carries out at least one sophisticated process, and all the processes used are mostly or completely accurate.	The student produces a comprehensive discussion of interpretations and conclusions that are consistent with the mathematical processes used.		The student has produced a project that is well structured and communicated in a coherent manner.
4			The student carries out at least one sophisticated process; the processes used are mostly or completely accurate and all the processes used are relevant.			
5			The student accurately carries out a number of relevant sophisticated processes.			

Criterion G: Commitment

0 The student showed little or no commitment.

1 The student showed satisfactory commitment.

2 The student showed full commitment.
