**Design for Sport** Anxo Cereijo Roibás, Emmanuel Stamatakis, 2017-03-02 Design for Sport shows how socially responsible design can contribute to make sport practice widespread in the general population including disadvantaged and hard to reach groups and those that have been traditionally excluded such as the elderly disabled people those living in deprived areas and from lower socioeconomic strata plus certain minority ethnic and religious groups Contributions from around the world provide compelling case studies and an international perspective While the main benefit from expanding sports practice in developed societies would be reduction of chronic disease rates and social inclusion in the developing world where political instability and conflict are more common the authors look at how sport can have other functions such as a means of post disaster relief They discuss how Participatory Design PD techniques and appropriate ethnographies can be implemented in order to better understand users needs and requirements as in the case of Paralympic sport where the increased sophistication of equipment used has evolved to meet the demands of the athletes Reflecting the multi disciplinary and cross disciplinary nature of design for sport the book also features case studies that look at environmental design to improve sport accessibility social wellbeing economic development and environmental sustainability

**Studies in Temporal Urbanism** Fabian Neuhaus, 2011-08-04 This book is very much about what the name urbanTick literally says about the ticking of the urban the urban as we experience it everyday on the bus in the park or between buildings It is about the big orchestrated mass migration of commuters the seasonal blossoms of the trees along the walkway and the frequency of the stamping rubbish eater trucks It is also not to forget about climate infrastructure opening hours term times parking meters time tables growing shadows and moon light But most of all it is about how all this is experienced by citizens on a daily basis and how they navigate within this complex structure of patterns The content of this book is based on the content of the urbanTick blog between 2008 2010 One year blogging about this topic brought together a large collection of different aspects and thoughts It is not at all a conclusive view the opposite might be the case it is an exploratory work in progress while trying to capture as many facets of the topic as possible
