

3:- Konica Minolta Error Code 535 Solution

When attempting to scan to email from a printer of the Bathtub C368 series, the code 535, commonly known as the scan error, is frequently caused by an SMTP server issue or an authentication error.

Check to see if your firm recently changed email passwords since this is a regular practice to maintain a certain level of security in order to fix the scan error code 535. The **Konica Minolta printer's setup** email must be updated if the password for the email address has been changed. The issue should be fixed after the printer's internal e-mail address has been updated with the new password.

It is best to factory reset the printer and create a new configuration account if code 535 cannot be fixed. To reduce the possibility that this error will occur in those instances, we advise using a "hidden" account with a permanent email address and password.
