The National Fire Protection Association NFPA and Jones Bartlett Learning are pleased to bring you the fourth edition of *Engine Company Fireground Operations*. This expanded edition incorporates the latest recommendations from UL and the National Institute of Standards and Technology NIST into every aspect of fire attack and ventilation and presents an extensive study of engine company fire ground operations. This new edition is an ideal resource for fire service personnel preparing for promotion or studying for a civil service examination. Firefighters and company officers will gain knowledge in fire science, building construction, and the effects of burning modern fuels that result in extreme fire behavior. Specific features include:

- Detailed illustrations that show the tactics and approaches described in each chapter.
- Case studies of strategies and tactics that resulted in firefighter line of duty deaths as well as those that were successful incorporated into the recommended practices of engine company fire attack, rescue, and ventilation.
- Detailed information on size up that applies risk management principles to the Value Time Size method, which considers survivability, profiling, and threshold limits.
- Identifying problems, selecting strategies, and tactics.
- Developing a quick incident action plan and applying a functional accountability system for safety.
- A significant emphasis on attacking residential and commercial basement fires.
- A one-of-a-kind chapter on fireground operations and responsibilities for company level high rise firefighting, with special attention paid to fire behavior within high rise buildings.
- In depth coverage of all the basic engine company responsibilities, including:
 - Equipment
 - Initial hose lays and water supplies
 - The deployment of attack, back up, and exposure hose lines
 - Rapid intervention teams
 - Search and rescue
 - Master streams
 - Fire protection systems
 - Standpipe operations
 - Salvage and overhaul
