Report of the ... and ... Meetings of the British Association for the Advancement of Science British Association for the Advancement of Science. Meeting,1879 David Levy's Guide to Observing Meteor Showers David H. Levy,2008 Meteors occur when a meteoroid a speck of dust in space enters the Earth s atmosphere The heat generated when this happens causes the surrounding air to glow resulting in shooting stars During the most spectacular meteor storms larger particles give rise to fireballs and firework like displays Meteors are a delightful observing field they do not require a telescope and they can be seen on any clear night of the year even in bright twilight It was the sight of a single meteor that inspired David Levy to go into astronomy and in this book he encourages readers to go outside and witness these wonderful events for themselves This book is a step by step guide to observing meteors and meteor showers Any necessary science is explained simply and in clearly understandable terms This is a perfect introduction to observing meteors and is ideal for both seasoned and budding astronomers *Report of the ...
