

Putting It Together 11

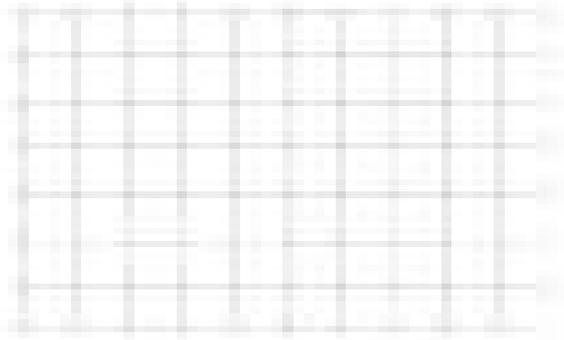

After taking a general overview of the above scenarios, they are given systems for the corresponding relations. For example, for the first scenario, the first system is $x + y = 10$ and the second is $x = 2y$. They are to graph all the systems (all eqs).

Second they work on the Cartesian coordinate system of the relations in the systems from the city before. It is to be determined if the cities are in the same region.
