

Memorandum

Dated: 14 January 2023

To: Sales & Marketing Group

From: Praveenkumar Revankar, Product Engineering

Subject: Delay in release timelines of Feature A and Feature B.

Purpose:

The purpose of this document is to notify the cross-functional group about sudden changes in release timelines of Feature A and Feature B and to reinform the group to reprioritize certain tasks for Sales and Marketing for the release.

Background/Context:

We have been working together on our key USP features 'Feature A' and 'Feature B' for targeting their release this quarter. Due to unforeseen circumstances, there is a change in the release timelines and the new timeline will be shared shortly in Scrum of Scrum meeting where a representative from Sales has been invited.

Action:

Even though it looks like a major setback and current activities w.r.t. The release can be paused, there are certain actions that have to be performed in this quarter. The same has been conveyed in Jira, marking the work items with labels "Q1_Paused" and "Q1_Must." Please reprioritize your internal activities based on the labels in Jira and ensure a final plan reflected in Jira on or before 30 January 2023.

Conclusion:

We might be delayed with the release but we are not affecting the business. The necessary strategy is defined and put in place to ensure customers can solve their problems using our support until Feature A and Feature B release.

Thanks,
Praveenkumar Revankar

February March 2014 Memorandum Paper 1

Jennifer L. Whelan

February March 2014 Memorandum Paper 1:

Reconceptualising Unaccompanied Child Asylum Seekers and the Law Jennifer L. Whelan, 2022-09-30 Unaccompanied child asylum seekers are amongst the world's most vulnerable populations and their numbers are increasing. The intersection of their age, their seeking asylum, and separation from their parents creates a specific and acute triple burden of vulnerability. Their precariousness has long been recognised in international human rights law. Yet human rights based responses have been subordinated to progressive global securitisation of irregular migration through interception, interdiction, extraterritorial processing, and immigration detention. Such an approach necessitates an urgent paradigm shift in how we comprehend their needs, as children, the impact of punitive border control laws on them, and the responsibility of States to these children when they arrive at their borders seeking asylum. This book reconceptualises the relationship between unaccompanied child asylum seekers and States. It proposes a new conceptual framework by applying international human rights law, childhood studies, and vulnerability theory scholarship in analysing State obligations to respond to these children. This framework incorporates a robust analysis of the operation and impact of laws on vulnerable populations, a taxonomy for articulating the gravity of any consequent harms, and a method to prioritise recommendations for reform. The book then illustrates the framework's utility using Australia's treatment of unaccompanied children as a case study. This book illuminates key learnings from human rights law, childhood studies, and vulnerability theory and transforms them into a new roadmap for law reform. As such, it will be a valuable practice-based resource for practitioners, non-government organisations, advocates, policymakers, and the general public interested in advocating for the rights of vulnerable populations, as well as for academics, researchers, and students of human rights law, refugee law, childhood studies, and vulnerability studies.

Community Translation Mustapha Taibi, Uldis Ozolins, 2016-02-25 Investigating an important field within translation studies, Community Translation addresses the specific context, characteristics, and needs of translation in and for communities. Traditional classifications in the fields of discourse and genre are of limited use to the field of translation studies as they overlook the social functions of translation. Instead, this book argues for a classification that cuts across traditional lines based on the social dimensions of translation and the relationships between text producers and audiences. Community Translation discusses the different types of texts produced by public authorities, services, and individuals for communities that need to be translated into minority languages and the socio-cultural issues that surround them. In this way, this book demonstrates the vital role that community translation plays in ensuring communication with all citizens and in the empowerment of minority language speakers by giving them access to information, enabling them to participate fully in society.

Ecosystem-Based Fisheries Management Jason S. Link, Anthony R.
