Nick Allen

Embedded With Remfs English Edition:

Embed Nick Allen, 2014-10-06 In 2007 journalist Nick Allen quit a secure job in Pakistan as a news agency writer to experience the life of foreign troops fighting the Taliban in Afghanistan. Over several years he journeyed as an embedded reporter with a dozen armies working his way through placid backwaters to remote savage hotspots where daily clashes with insurgent forces were the norm. Driven by a desire to himself live and then convey some of the drama, tragedy, farce, and sheer frustration experienced by soldiers and marines from California to Copenhagen, Allen returned again and again for embeds with different contingents to explore a multinational effort that will surely define NATO's future and events in South Asia and the world for many years to come. No other writer managed to gain such broad access to the forty-two country Coalition that was deployed in Afghanistan or produce an account that carries so much of the essence of soldiering in this inhospitable environment where extremes of climate, treachery, and enemy cunning have always defeated nations that dared to wage war in the graveyard of empires. Embed explores the fragile calm of Bamiyan and its ancient sites and other low-intensity regions usually ignored but a vital part of the overall picture together with the ferocious clashes of Helmand, Kandahar, Kunar, and other provinces. The author found that even the most sophisticated armed forces had been sucked into a fight they were ill-prepared for and amid political uncertainty and dwindling public support back home ultimately could not win.

Embedded with REMFs John Buzzard, 2011-05-21 *Embedded With REMFs* is an illustrated novel with military satire like that of *MASH* and the action of Kelly's Heroes. Reporters Henry Baggs and Frank Ferguff went to Vietnam looking for a story. Foremost in their minds was producing articles free from Pentagon talking points and the biased opinions floating around most newsrooms. Interviews with the GIs in combat often clashed with the sanitized fluff handed down by MACV public affairs officers. Disillusioned by ticket-punching career officers who put lives at risk for publicity and the new breed of opinionated journalists, Baggs and Ferguff sought a story that reflected the human aspects of the war. What they found was a group of rear echelon geeks and three beer-guzzling truck drivers. Led by a Green Beret chaplain, these unlikely warriors pulled off an unauthorized daring rescue mission in the chaos of the 1968 Tet Offensive.
