Innovating Assessment and Feedback Design in Teacher Education Cornelia Connolly, T.J. Ó Ceallaigh, 2023-12-18
Assessment and feedback are central to the question of how teacher educators can enhance and transform teaching and learning. This edited volume details case studies and empirical research presenting alternative innovative designs for assessment and feedback across a range of programmes, mediums and jurisdictions. While the swift and unexpected digital pivot during the pandemic emphasised how teacher education adopted and facilitated online teaching, supervision and practice, there is now a need for increased attention to support alternative approaches. *Innovating Assessment and Feedback Design in Teacher Education* considers the perspectives and experiences of teachers, educators and students while also exploring discipline-specific practices and outcomes, professional competencies as well as issues pertaining to quality, equity, inclusion, accountability, academic integrity and success. Carefully chosen international contributors provide cutting-edge research findings and discuss their practical implications covering the development, deployment and evaluation of classroom-based, hybrid and remote approaches. This book elaborates upon the transformative assessment and feedback approaches taken by teacher educators to inform the future landscape of teaching and learning in a digital age. Illustrating key developments in the field, examples of best practice, dialogues integrating the student perspective, worked examples and international perspectives, this key book is an invaluable resource for teacher educators striving to improve their practice.

Classroom Assessment Techniques Thomas A. Angelo, Todd D. Zakrajsek, 2024-06-26
Classroom Assessment Techniques: Formative Feedback Tools for College and University Teachers A practical, research-based handbook for using assessment to improve learning. This completely revised and updated third edition of *Classroom Assessment Techniques* provides a research-based, engaging guide to assessing student learning where it matters most: at course and classroom levels. Informed by the latest international educational research and 30 years of classroom assessment practice, this practical handbook is designed for postsecondary teachers from all disciplines, faculty and academic developers, and assessment professionals. It offers field-tested guidance, tools and advice for planning, designing and implementing formative assessment in face-to-face, hybrid and fully online classrooms, analyzing resulting data and using that data to improve student learning. *Classroom Assessment Techniques, 3rd Edition* is a practical, clearly written handbook for busy professionals. It contains a wealth of useful resources, including 50 plus CATs, classroom assessment techniques, flexible formative assessment tools, easily adaptable for use in a wide range of disciplines and contexts. Case studies and examples illustrate how college and university faculty have applied these techniques to improve learning. A new Course Learning Outcomes Inventory (CLOI), a self-assessment tool for identifying and prioritizing the most relevant learning outcomes to assess. The original Teaching Goals Inventory (TGI), which offers an alternate teaching-focused approach to setting assessment priorities. Multiple ways to quickly find the most appropriate tool. CATs are indexed by discipline, examples of Bloom's Taxonomy, Biggs and Tang's SOLO Taxonomy, the CLOI and the TGI. Brief

chapters explaining what formative assessment is how it can improve student learning how to gather and provide formative feedback how to link classroom assessment with broader other assessment efforts and how to collaborate with students and colleagues Each CAT provides a brief self contained recipe including a description steps for implementation dos and don ts and relevant references
