Donald,2012-09-28 It is often interesting to know why an author chose to write a particular story First in order for me to explain this reason I need to tell you a little about my background I have worked as a teacher then as a child psychologist in schools and finally as a lecturer and professor of Educational Psychology in universities It is only since my retirement some twelve years ago that I had the time to start writing stories for both young children and older adolescents Because of my professional background and particular interest in reading development all my published short stories and novels have an underlying purpose And that purpose is to bring to young people reading material that is not only interesting and that they can relate to their personal lives but also carries with it something that could be useful in their psychological development All of my three novels in this Xlibris Corporation series see the relevant titles of the other two novels below have an underlying developmental theme and purpose And this is to provide stories that I hope may help young people deal with the painful feelings and practical difficulties that always have to be faced when someone has lost a loved one Perhaps even more important each of the stories also tells in its own way how the main character overcomes and rises above his or her grief and difficulties In each case this recovery comes not only from the help and support of one or more friends relatives neighbours and teachers but also significantly from the determination and courage of each of the main characters In order to help you relate these important elements to your own life and perhaps to the lives of other young people whom you may know I have added two short sections at the end of each book The first provides you with a number of Questions to think about and the second with a few carefully chosen Activities for you to undertake Even though it may take a little effort please follow through on both of the above elements as they will most definitely help you get the most out of each story Second I believe that an author of any fictional story needs to be personally familiar with the place as well as the language and culture of the

people who live there Without this element the story will simply not feel authentic or real to any reader wherever they happen to live in the world My hope again is that this will be true for you In each of my three novels I have a list at the end of the novel of the English translations and a guide to the pronunciation of those important names words and phrases in the indigenous languages that I have chosen to use in the respective novels I think this may contribute to the authenticity of the stories as you read them I hope so The titles of my other two novels in this Xlibris Corporation series are I am Thabeka and Woza Thabo *Gogo Loves English* Ken Methold, Amanda Cant, 1996 *Gogo Loves English. 3 (Cassette tape 1)* (New Edition) [?], 2004-01-01 *GOGO LOVES ENGLISH 1(V.T:1)* [?], 1996-11-01 *Gogo Loves English* Ken Methold, 1996-04-01 *Language, Culture, and Society* James Stanlaw, Nobuko Adachi, 2025-03-31 Why should we study language How do the ways in which we communicate define our identities And how is this all changing in the digital world Over seven editions many have turned to *Language Culture and Society* for answers to questions like these because of its comprehensive coverage of all critical aspects of linguistic anthropology This eighth edition carries on the legacy while addressing some of the newer pressing and exciting challenges of the twenty first century such as issues of language and power language ideology linguistic diasporas as well as online and digital ecosystems New to this edition are a reconceptualization of how linguistics approaches race gender and sexuality with additional chapters and sections on how linguistics benefits archaeology and biological anthropology as well as considerations of the relationship between language and truth ethics and war and politics It also features enhanced and updated pedagogical features such as learning objectives updated resources for continued learning and cross references to updated encyclopedias of linguistic anthropology

Language, Culture, and Society Zdenek Salzman, James Stanlaw, Nobuko Adachi, 2014-07-08 Why should we study language How do the ways in which we communicate define our identities And how is this all changing in the digital world Since 1993 many have turned to *Language Culture and Society* for answers to questions like those above because of its comprehensive coverage of all critical aspects of linguistic anthropology This seventh edition carries on the legacy while addressing some of the newer pressing and exciting challenges of the 21st century such as issues of language and power language ideology and linguistic diasporas Chapters on gender race and class also examine how language helps create and is created by identity New to this edition are enhanced and updated pedagogical features such as learning objectives updated resources for continued learning and the inclusion of a glossary There is also an expanded discussion of communication online and of social media outlets and how that universe is changing how we interact The discussion on race and ethnicity has also been expanded to include Latin and Asian American English vernacular
