What is Mental Retardation? Harvey N. Switzky, Stephen Greenspan, 2006 What is Mental Retardation is a rare peek into the divergent and at times contentious points of view among the world's leading researchers on what the condition of mental retardation is and how it should be defined, measured and implemented in the 21st century. This candid and insightful collection of 21 essays features expert opinion on issues ranging from whether mental retardation really is a slowing of mental development and what the disability should be called to how cultural norms affect the definition of the condition worldwide and lessons learned from the Atkins v Virginia case. The definitions of mental retardation published from 1921-2002 by the American Association on Intellectual and Developmental Disabilities provide the backdrop for this powerful discussion.

Focus On People and Migration NA, 2016-04-30 Focus on People and Migration paints a comprehensive picture of the UK's population both now and in the future. The report examines where people live in the UK and provides an in-depth look at the UK's largest urban areas. It then focuses on the age structure of the UK population, fertility and mortality patterns and the movement of people into, out of and within the UK and examines how these factors will shape the future UK population. Particular population groups such as those born overseas are examined in more depth and finally the UK's demographic characteristics are compared with those of other countries to give an international perspective.
