Managing the Football World Cup S. Frawley,D. Adair,2014-12-02 Managing the Football World Cup explores areas often overlooked by project management and business studies researchers Therefore considering the global impact of the Football World Cup it is time for a detailed examination of the planning organization management implementation and related commercial features of this mega sport event

Mega-Events, City and Power Nelma Gusmão de Oliveira,2020-10-21 This book examines the power relations that emerge from the convergence of the universe in which the sporting spectacle is produced and the universe in which a city is produced It adopts Bourdieu s concept of field to explore the interests and disputes involved in the production of sports mega events across different times and spaces and the role of host cities in these processes It aims to identify the bases that give these spectacles the power to produce disruptions in the social fabric of the host cities and countries and to enable the production of authoritarian forms of exercising power By observing the historical constitution of the field of production of sport spectacle as an autonomous field this book explores how sport mega events create both an arena and a context for radical expressions of authoritarianism of neoliberal planning models It will be of interest to students scholars and professionals in architecture and urban studies urban planning municipal governance sport and leisure studies and those interested in the relationship between State and capital in the production of urban space

Risk and Safety Management in the Leisure, Events, Tourism and Sports Industries Mark Piekarz,Ian Jenkins,Peter Mills,2015-09-02 The management of risk and safety is not simply a matter of trying to remove risks but is necessary and vital to these industries Sensible risk management is concerned with making the most of the positive opportunities or reducing the negative risks This books shows how the absence of explicit risk practices is not necessarily an absence of risk management and how many existing operational and strategic practices can be understood as part of a process of risk and safety management Its main objective is to develop greater clarity in the communication of risks and the development of safety programmes illustrating how organisations can use a single language of risk relevant for all levels of management and areas of operation
