*The Beak of the Finch*

**BioInteractive**

STUDENT HANDOUT  
BASIC ACTIVITY

- What observations can you make about the overall shape of each graph? (Imagine that you are drawing a line that connects the tops of the horizontal bars.)
  - What do the shapes of the two graphs indicate about the distribution of beak depth measurements in these two groups of medium ground finches?
- Compare the distribution of beak depths between survivors and nonsurvivors. In your answer, include the shape of the distributions, the range of the data, and the most common measurements.
- Based on what you saw in the film, think about how changes in the environment may have affected which birds survived the drought. Propose a hypothesis to explain differences in the distribution of beak depths between survivors and nonsurvivors.
- Let's look in more detail at the mean beak depths in the two groups of birds to understand the meaning of standard deviation.
  - How do the mean beak depths and standard deviations of the mean beak depths compare?
  - If the standard deviation of the two samples were to be vastly different, what would you conclude about the two groups?

their teaching practices which mostly involved lecture worksheets and recitation In doing so I demonstrate how resistance was operating but also show a variety of factors that complicated interns efforts to develop competence as teachers including their efforts to form relationships with their students I explore how the interns made sense of their situations in ways that negated issues of race and class Because the interns struggles to learn how to teach included but exceeded the scope of the resistance argument I argue for a reconceptualization of resistance that recognizes it as an expected reaction when a piece of an intern s valued identity is under assault by experiences for which habits are largely unequipped to deal I argue that such a conceptualization can help teacher educators to work with interns more effectively as learners in very unfamiliar and uncomfortable territory I discuss some possible directions for teaching and research for teacher educators who undertake the charge of preparing future teachers to work with students from different backgrounds The dissertation citations contained here are published with the permission of ProQuest llc Further reproduction is prohibited without permission Copies of dissertations may be obtained by Telephone 800 1 800 521 0600 Web page [http://www.proquest.com/en\\_US/products/dissertations/individuals.shtml](http://www.proquest.com/en_US/products/dissertations/individuals.shtml) Living Bird ,2001
