Mechanic and Mirror of Science and Art ,1881 Curating the Digital David England,Thecla Schiphorst,Nick  
Bryan-Kinns,2016-06-01 This book combines work from curators digital artists human computer interaction researchers and  
computer scientists to examine the mutual benefits and challenges posed when working together to support digital art works  
in their many forms In Curating the Digital we explore how we can work together to make space for art and interaction We  
look at the various challenges such as the dynamic nature of our media the problems posed in preserving digital art works  
and the thorny problems of how we assess and measure audience s reactions to interactive digital work Curating the Digital  
is an outcome of a multi disciplinary workshop that took place at SICHI2014 in Toronto The participants from the workshop  
reflected on the theme of Curating the Digital via a series of presentations and rapid prototyping exercises to develop a  
catalogue for the future digital art gallery The results produce a variety of insights both around the theory and philosophy of  
curating digital works and also around the practical and technical possibilities and challenges We present these  
complimentary chapters so that other researchers and practitioners in related fields will find motivation and imagination for  
their own work *English Mechanic and Mirror of Science* ,1880 **English Mechanic and World of Science** ,1881
