entities such as hospitals or physician groups And the circle will encompass the full range of activities that contribute to
wellness and to fighting disease not just those services traditionally defined as healthcare The book consists of three
important sections Section I addresses how the new person centered system will change the way individuals care for their
own health giving them health records that accompany them throughout their lives across the full range of experiences that

factors such as control and ownership and the difficulties involved in relearning and learning to function in changed
workflow environments The third section focuses on approaches to transformation including focuses on delivering change
