Unit 1	Learning to Ask and Answer Questions (Getting to Know the Tools Around Us)	In this module, students build their literacy and listening skills as they engage in a study of tools and work. Students first learn about how tools help to do a job. They then extend their understanding of what it takes to do a job when they learn how the “habits of character” of initiative, collaboration, perseverance, and responsibility help them do work. In Unit 1, students are introduced to tool kits through a series of “tool challenges.” In each challenge, students are presented with a dilemma and the question, “Which tool is best for the job?” Students discuss by asking and responding to questions, and ultimately experiencing tools for themselves as they engage in each tool challenge. Following these experiences, students engage in a series of focused read-alouds, featuring people from around the world who use specific tools for certain tasks. Students reflect on their own experiences with tools from earlier in the unit, as well as those they have read about, to construct a definition of tools.						
Unit 2	Reading Closely (Learning about Habits of Character)	In Unit 2, students engage in close read-alouds, which focus on the study of characters in new literacy texts. Through these texts, students will consider the habits of character that help them make work easier and solve dilemmas. To support their understanding of these habits of character, students experience a new set of challenges.
