

IELTS Academic Writing Task 1 Activity - answer keys

Key to Procedure steps:

Step 2: Students have to spend a maximum of 20 minutes writing at least 150 words describing the main features of the graph, making comparisons and summarising it in their own words.

Step 3: The graph shows three time periods and both males and females in full and part time education. The main features are that the number of women in part and full time education increased, as did the number of men in part time education. The number of men in full time education fluctuated.

Step 6: The assessment criteria for task 1 are:

Task achievement – in the sample task all the main features of the graph are considered, nothing irrelevant is included and there are 179 words

Coherence and Cohesion – The answer has been divided into logical paragraphs and uses cohesive devices e.g. while, overall, as far as women are concerned...

Lexical resource – the vocabulary is varied e.g. went up, rose, increased, women, females, gradually, dramatically

Grammatical range and accuracy – there is a fairly good range and accurate use of grammatical structures e.g. comparatives – was lower than, adverbs – (increased) dramatically, past continuous – was fluctuating, passives – were involved

Key to Exercise 1

1. **What four pieces of information do you learn from the four sentences above the chart?**

The time you should spend; the introductory description of the chart; the instructions for the task; and the word count.

2. **Should candidates just copy the information on the question paper for their introductory statement?**

No. Candidates should use their own words at all times. Words and phrases copied directly from the question paper will not be assessed. They should try to paraphrase the information written on the question paper.

3. **Is the information about High School students?**

No. The information is about men and women studying in further education. The information in the first part of the question will help you to find out exactly who or what you are going to describe.

Ielts Australia Model Question Papers:

Assessing Second Language Reading Karim Sadeghi, 2021-08-25 This book investigates the issue of cloze validity as a measure of second language reading comprehension. It starts off by making a distinction between general reading ability and the more specific reading comprehension followed by a thorough review of the related research on L2 reading comprehension and sorting out the confusion in the literature in this categorization. A comprehensive account of cloze procedure is presented discussing its origin, different versions, its use for teaching and testing purposes, as well as the latest research on cloze as measures of readability, language proficiency, and second language reading. The book includes studies conducted at several stages on validating cloze as a measure of reading and interview and questionnaire techniques are applied to investigate the validity of eight cloze tests: criterion reading tests and other cloze and reading tests in general. Two new cloze tests, i.e. reader-centered cloze test and phrase cloze test, are also introduced and researched as measures of reading ability. The book concludes with suggestions for developing tests that can better measure reading comprehension in light of recent research insights on the complex and dynamic nature of reading. This book will appeal to researchers, lecturers, and graduate and post-graduate students taking a course in Second Language Acquisition, Applied Linguistics, TESOL, Language Assessment, and Educational Measurement. Technology-Assisted Language Assessment in Diverse Contexts

Karim Sadeghi, 2022-12-30 This timely collection explores the role of digital technology in language education and assessment during the COVID-19 pandemic. It recognises the unique pressures which the COVID-19 pandemic placed on assessment in language education and examines the forced shift in assessment strategies to go online, the existing shortfalls, as well as unique affordances of technology-assisted L2 assessment. By showcasing international examples of successful digital and computer-assisted proficiency and skills testing, the volume addresses theoretical and practical concerns relating to test validity, reliability, ethics, and student experience in a range of testing contexts. Particular attention is given to identifying lessons and implications for future research and practice and the challenges of implementing unplanned computer-assisted language assessment during a crisis. Insightfully unpacking the lessons learned from COVID and its impact on the acceleration of the shift towards online course and assessment delivery, it offers important guidelines for navigating assessment in different instructional settings in times of crisis. It will appeal to scholars, researchers, educators, and faculty with interests in educational measurement, digital education, and technology and language assessment and testing. *IELTS*

Abdelhamid ZOUBIR, 2013-08-13 *IELTS Academic Made Easy* combines a critical review of this testing system's marking rubrics and time constraints with an assortment of practical listening, speaking, and writing tasks. It also provides detailed references to listening and reading past test papers published by Cambridge University Press. **EASYUNI Ultimate University Guide 2013**
