

## IELTS Academic Writing Task 1 Activity - answer keys

### Key to Procedure steps:

**Step 2:** Students have to spend a maximum of 20 minutes writing at least 150 words describing the main features of the graph, making comparisons and summarising it in their own words.

**Step 3:** The graph shows three time periods and both males and females in full and part time education. The main features are that the number of women in part and full time education increased, as did the number of men in part time education. The number of men in full time education fluctuated.

**Step 6:** The assessment criteria for task 1 are:

**Task achievement** – in the sample task all the main features of the graph are considered, nothing irrelevant is included and there are 179 words

**Coherence and Cohesion** – The answer has been divided into logical paragraphs and uses cohesive devices e.g. while, overall, as far as women are concerned...

**Lexical resource** – the vocabulary is varied e.g. went up, rose, increased, women, females, gradually, dramatically

**Grammatical range and accuracy** – there is a fairly good range and accurate use of grammatical structures e.g. comparatives – was lower than, adverbs – (increased) dramatically, past continuous – was fluctuating, passives – were involved

### Key to Exercise 1

1. **What four pieces of information do you learn from the four sentences above the chart?**

The time you should spend; the introductory description of the chart; the instructions for the task; and the word count.

2. **Should candidates just copy the information on the question paper for their introductory statement?**

No. Candidates should use their own words at all times. Words and phrases copied directly from the question paper will not be assessed. They should try to paraphrase the information written on the question paper.

3. **Is the information about High School students?**

No. The information is about men and women studying in further education. The information in the first part of the question will help you to find out exactly who or what you are going to describe.

*To Define and Inform* Saihong Li Rasmussen, 2010-05-11 *To Inform and Define* An Analysis of Information Provided in Dictionaries Used by Learners of English in China and Denmark presents a masterly synthesis of lexicographical theory in relation to bilingual and learner s dictionaries and advances a radical argument about how such dictionaries are used and how they should be improved for the convenience of students By tracing the history of the terms semantic and pragmatic in linguistics and philosophy Saihong Li shows the weakness of any conceptual distinction between them She goes on to demonstrate how inappropriate these terms are for thinking about the ways in which words are defined and explained in dictionaries The theoretical argument is supported by detailed and comparative empirical research learners of English as a second language in both China and Denmark were interviewed about their experiences as users of standard learner s dictionaries The results are presented in tabular form and their interpretation is statistically informed This is a path breaking study Saihong Li makes an important contribution to lexicographical theory and advances a sophisticated methodology for the comparative study of English language leaning on an international scale and in the global marketplace of learner s dictionaries Her work will be of great value for language teachers lexicographers and students of interpretation translation and language pedagogies *To Inform and Define* should also attract serious attention from editors and publishers of learner s dictionaries
