matter where Dr Richard Besser goes a day doesn't go by without someone stopping him to ask that question. Often that person is one of the millions who have come to rely on the vital information he shares on Good Morning America, World News with Diane Sawyer and Nightline. Now in response to thousands of inquiries from viewers, Dr Besser has written his first book, a comprehensive health guide that will both inform and surprise as he deciphers fact from fiction for nearly seventy confusing medical questions including: Should I take a daily aspirin to prevent a heart attack, stroke, or cancer? If my doctors order a lot of tests, does that mean they're more thorough? Do I need thirty minutes of exercise a day to stay healthy? Recognizing the astonishing amount of misinformation that many important health decisions are based upon, Dr Besser's commitment to delivering the truth is critical. He isn't afraid to challenge the status quo or the interests within the health care industry to provide the knowledge you need to take control of your health. Eager to help you make the choices that are right for YOU, he organizes his easy-to-understand answers into six lifestyle categories including diet and nutrition, exercise and fitness, vitamins, supplements, and medicines, beating illness and injury, and navigating the perplexing world of health care, as well as a chapter dedicated to the questions you wished you asked before your doctor walks out the door. Throughout the book, Dr Besser smashes myths while translating invaluable information into problem-solving advice you can use, including a Dr B's Bottom Line at the end of each topic. As accessible as it is empowering, Dr Besser's *Tell Me the Truth, Doctor* is a necessary addition to every home office and dorm room. Besser ably analyzes popular myths, the Freshman Fifteen, considers pros and cons of HRT and statins, and mostly takes unequivocal stands on the issues. Quite often his comments and suggestions surprise. Particularly helpful are his guidelines for avoiding the harmful effects of health care and hospitalization.

**Publishers Weekly** Richard Besser MD, ABC News Chief Health and Medical Editor, provides medical analysis and commentary for all ABC News broadcasts and platforms including World News with Diane Sawyer, Good Morning America, and Nightline, as well as many other news/entertainment programs. Since joining ABC News in 2009, Dr Besser has been at the forefront of news coverage for every major medical story, including the earthquake in Haiti and the Japanese radiation release. He was the leading correspondent on ABC's global health series *Be the Change, Save a Life* and received a 2011 Emmy nomination for Outstanding Investigative Journalism for his World News story on cord blood banking. Besser came to ABC News from the Centers for Disease Control and Prevention (CDC) where he worked for thirteen years, including as acting director from January to June 2009, during which time he led the CDC's response to the H1N1 influenza outbreak. He has taught and trained doctors at the University of California, San Diego, and is a visiting fellow at the Harvard School of Public Health. Most important for more than twenty-five years, he has practiced medicine, giving his patients and their families straightforward, commonsense advice.
