## La France Invisible:

**The Invisible Women of Malraux/ Les femmes invisibles de Malraux** Jocelyne Laplagne, Guy Laplagne, 2025-12-29  
Cet ouvrage explore le silence et l'absence des femmes dans l'œuvre et la vie d'André Malraux à travers des scènes imaginées, des dialogues et des procès fictifs. Elle met en lumière ce vide historique et littéraire tout en offrant un regard critique et poétique sur l'écrivain et l'homme politique. This play explores the silence and absence of women in the work and life of André Malraux through imagined scenes, dialogues, and fictional trials, highlighting this historical and literary void while offering a critical and poetic view of the writer and political figure. *The Hidden History of Crime, Corruption, and States* Renate Bridenthal, 2017-06  
Renowned historical sociologist Charles Tilly wrote many years ago that banditry, piracy, gangland rivalry, policing, and war-making all belong on the same continuum. This volume pursues the idea by revealing how lawbreakers and lawmakers have related to one another on the shadowy terrains of power over wide stretches of time and space. Illicit activities and forces have been more important in state building and state maintenance than conventional histories have acknowledged. Covering vast chronological and global terrain, this book traces the contested and often overlapping boundaries between these practices in such very different polities as the pre-modern city states of Europe, the modern nation states of France and Japan, the imperial power of Britain in India and North America, Africa's and Southeast Asia's postcolonial states, and the emerging postmodern regional entity of the Mediterranean Sea. Indeed, the contemporary explosion of transnational crime raises the question of whether or not the relationship of illicit to licit practices may be mutating once more, leading to new political forms beyond the nation state. **Invisible Immigrants** Amelia H. Lyons, 2005  
**Artistic Creation and Ethical Criticism** Ted Nannicelli, 2020-05-05  
Artistic Creation and Ethical Criticism investigates an idea that underpins the ethical criticism of art but is rarely acknowledged and poorly understood: namely, that the ethical criticism of art involves judgments not only of the attitudes a work endorses or solicits but of what artists do to create the work. The book pioneers an innovative, production-oriented approach to the study of the ethical criticism of art, one that will provide a refined philosophical account of this important topic as well as conceptual tools that can guide future philosophizing and criticism. **The Essence and the Margin**, 2009-01-01  
With the expansion of the EU and calls for a European constitution, the question of a common European identity has become increasingly pressing in recent times. However, in the face of diverse national and regional traditions and the absence of an obvious European cultural imaginary, the forging of a strong sense of European identity proves problematic. This volume brings together case studies of national and regional images from across Europe which together suggest emerging patterns of identification within contemporary Europe, patterns which may not necessarily amount to a European identity but rather to a European mode of identification. The chronological structure of the volume demonstrates the increasingly problematic nature of national collective memories and past imaginaries in light of emergent marginal voices and images and suggests that it is both from beyond and within the

national paradigm that new challenges are now reshaping the cultural imaginary of European communities Focusing on cultural images within film literature national narratives and myths museum exhibitions and architecture this volume is of interest to a wide variety of disciplines in the humanities and presents an interdisciplinary approach to questions of cultural memory and identity formation
