Outdoor Life, 1918 *Indigenous Digital Life* Bronwyn Carlson, Ryan Frazer, 2021-10-04 Settler societies habitually frame Indigenous people as a people of the past their culture somehow frozen in time their identities tied to static notions of authenticity and their communities understood as in decline But this narrative erases the many ways that Indigenous people are actively engaged in future orientated practice including through new technologies Indigenous Digital Life offers a broad wide ranging account of how social media has become embedded in the lives of Indigenous Australians Centring on ten core themes including identity community hate desire and death we seek to understand both the practice and broader politics of being Indigenous on social media Rather than reproducing settler narratives of Indigenous deficiency we approach Indigenous social media as a space of Indigenous action production and creativity we see Indigenous social media users as powerful agents who interact with and shape their immediate worlds with skill flair and nous and instead of being a people of the past we show that Indigenous digital life is often future orientated working towards building better relations communities

and worlds This book offers new ideas insights and provocations for both students and scholars of Indigenous studies media and communication studies and cultural studies
