Thompson, Ruth F. Chadwick, 2007-07-23 It is difficult to think of an example of an advancement in the biological sciences that has had an impact on society similar to that of the new genetics Recent developments in biotechnology have occasioned much discussion among academics professionals and lay people alike In particular many questions and concerns have arisen over the acquisition access and control of genetic information There are several reasons why the new genetics has commanded such widespread attention and why it is now the subject of considerable debate Special reference is given in this volume to the implications of genetic information for five different subject areas eugenics the insurance industry the commercialisation of genetic testing strategies for raising public awareness and the value of theoretical ethical and sociological frameworks in the debate This diverse collection of papers attempts to address and critically discuss issues surrounding the control of and access to genetic information from ethical medical legal and theoretical points of view The first and shortest section of the book attempts to address concerns over the eugenic potential of new biotechnologies It also provides a historical context for the debate for controversy over the subject of eugenics predates the current debate over genetic information by a considerable length of time Indeed by the time the first patent was issued for Chakrabarty's strain of oil eating bacteria in the early 1970s the term eugenics had already acquired strong pejorative connotations

**Transcend the Flesh** Tobiasz Mazan, 2015-04-17 Do you want to live forever End all suffering Transcend bodily fluids and reach the stars Sure But you may pay for it with your soul **American Literature and Therapeutic Cultures** Martin Halliwell, Nicholas Manning, 2026-01-31 This volume explores the myriad interactions between American literature and psychological discourses in the United States from self help to alternative health practices to psychotherapeutic approaches Spanning the 1940s to the 2020s it sheds light on the development and conceptualization of therapeutic culture during a century in which it has oscillated between clinical and cultural domains Bringing together an intergenerational group of scholars from France the UK and the US the collection examines authors as varied as William Carlos Williams Lionel Trilling Sylvia Plath Philip Roth Colson Whitehead Daniel Suarez and Ottessa Moshfegh Moving beyond the conventional focus on

psychoanalysis the eleven contributors foreground how American literature is animated by broader therapeutic modes and trajectories At stake are not only literature s historical links to psychological theories and institutions but the neoliberal framing of literary texts as tools for personal restoration
