

Corset Workshop

As you become more confident in your sewing skills, you can make the corset using a full bust. The bust line is the most important, and most difficult, part of the construction. The bust is supported by the girdle and stays and forms a triangle with the side panels being connected between them.

We took the paper pattern, and then we made up the bodice and the skirt of my corset. I started with the bodice and then attached the skirt. Adding cardboard lining to the bodice helps to strengthen the structure and give it more support. I used buttons to add detail to the skirt, and used a ribbon to tie up the back to support the bodice design.

Some corsets are made in a single piece, but this one is made in two pieces. The bodice and skirt are made from separate pieces of fabric, and the skirt is made from a different fabric.

As you begin to make your own corset, you will find that the bodice and skirt are made from separate pieces of fabric, and the skirt is made from a different fabric. This is because the bodice and skirt are made from different fabrics, and the skirt is made from a different fabric.
