**Teaching and Learning Secondary School Mathematics** Ann Kajander, Jennifer Holm, Egan J Chernoff, 2018-10-24 This volume brings together recent research and commentary in secondary school mathematics from a breadth of contemporary Canadian and International researchers and educators It is both representative of mathematics education generally as well as unique to the particular geography and culture of Canada The chapters address topics of broad applicability such as technology in learning mathematics recent interest in social justice contexts in the learning of mathematics as well as Indigenous education The voices of classroom practitioners the group ultimately responsible for implementing this new vision of mathematics teaching and learning are not forgotten Each section includes a chapter written by a classroom teacher making this volume unique in its approach We have much to learn from one another and this volume takes the stance that the development of a united vision supported by both research and professional dialog provides the first step

**Education in Cambodia** Vincent McNamara, Martin Hayden, 2022-05-14 This book is the most comprehensive account yet published about the education system in Cambodia It covers all system levels and draws upon the knowledge and insights of a wide range of leading Cambodian and foreign scholars The book focuses on how the system has developed and is making progress Significant achievements over the past two decades are evident but many problems remain including the poor quality of teaching research and institutional management Under funding is an ongoing obstacle but so too is a bureaucratic culture of resistance to change a history of weak governance and an anti reform sentiment deriving from a teacher centred and exam driven curriculum Achieving international standards must now be the system s highest priority To this end the system must rid itself of conservatism complacency and manipulation by parochial vested interests

*Improving Primary Mathematics Education, Teaching and Learning* Mellony Graven, Hamsa Venkat, 2017-01-19 This book focuses on how to improve the

teaching and learning of primary level mathematics education within resource constrained contexts It builds on two large numeracy projects within South Africa which speak to broader global concerns and highlight how research and development not only enables one to meet ethical imperatives but also explore how further interventions can be developed Teacher and research communities must work together to create mutually beneficial relationships and establish a cohesive understanding of the requirements of primary mathematics education
