is wrong with India or how to fix it I do not profess to be a philosopher or a visionary But I do have some ideas which I want to share with my countrymen and a lot of the same would probably apply in many other nations as well All I heard was the system is wrong and it can't be fixed After just 51 months of Modi as Prime Minister people are wondering what WAS going on for 67 years before him Yes the system is wrong but IS BEING fixed and this book just gives some additional ideas to Mr Modi but I wouldn't be surprised if he knows most of it and has it on his agenda This book outlines 72 items which are pending action from the governments over the years as India nears 72 years of independence from the UK The time has come to finish the uncomplete agenda
