Convictions of Conscience Brenda J. McMahon, Lisa R. Merriweather, 2019-10-11 *Convictions of Conscience* guides educational leaders in creating socially just schools by challenging neoliberal practices and promoting decolonization. It emphasizes equity, social justice, and advocacy for marginalized communities, urging leaders to reject managerial approaches.

Nonprofit Management Michael J. Worth, 2020-10-13 Mike Worth does a great job of explaining the concepts of nonprofit management and provides excellent case studies and exercises so students can see how these concepts work in the real world. Durand H. Crosby, J.D., Ph.D., Oklahoma University, Michael J. Worth's best seller *Nonprofit Management: Principles and Practice* provides a comprehensive, insightful overview of key topics nonprofit leaders encounter daily. Worth covers both the governance and management of nonprofit organizations, the scope and structure of the nonprofit sector, leadership of nonprofits, management, fundraising, earned income strategies, financial management, lobbying, and advocacy, managing international and global organizations, and social entrepreneurship, helping readers understand what they are and how they work. The text balances research, theory, and practitioner literature with current cases and the most recent data available, making it appropriate for undergraduates, graduate students, and nonprofit professionals. The Sixth Edition has been updated to include new material regarding diversity, equity, and inclusion, volunteer stewardship, nonprofit executive transitions, models for pursuing earned income, ethical dilemmas, and controversial donors, generational differences in the workplace, and an exploration of the role of nonprofits in advancing social movements. Included with this title is the password-protected Instructor Resource Site, formally known as SAGE Edge, which offers access to all text-specific resources, including a test bank and editable chapter-specific PowerPoint slides.

News, Neoliberalism, and Miami's Fragmented Urban Space Moses Shumow, Robert E. Gutsche Jr., 2016-11-23 *News, Neoliberalism, and Miami's Fragmented Urban Space* examines cultural and social forces responsible for inequalities that have emerged in the rampant development of Miami as a world city. This book argues that neoliberal movements rely on the power of journalistic discourses to authorize and legitimize harmful social acts such as gentrification. Moses Shumow and Robert E. Gutsche Jr. provide original analyses of intersections among memory, race, capitalism, and journalistic power, particularly at a time of immense political and environmental change. The authors examine changes in neighborhoods and in public-private developments that are bound to widen an already great divide between classes and races in South Florida.

Doping in Sports Stephanie Sammartino McPherson, 2016-01-01 Behind the fame of big-time sports lies a complex web of controversy and deceit. Doping, the use of banned performance-enhancing drugs (PEDs) to gain a competitive athletic edge, is common in many sports. While doping can improve performance, it poses huge risks for athletes' health and careers. Some of the world's top athletes, from cyclist Lance Armstrong to professional baseball player Alex Rodriguez, have seen their images tarnished by doping scandals. Still, the pressure to win and high financial stakes drive many athletes to PEDs. Award-winning author Stephanie Sammartino McPherson uncovers the shadowy world of athletes who
