

The biological, social, and psychological characteristics analyzed on a genogram

A genogram outlines the characteristics of a family biologically, socially, and psychologically. These characteristics are passed down from generation to generation. A theory proposed by Dr. Murray Bowen suggests that a family is a system as an emotional unit that are affected by one family member's feelings, emotions, and decisions. (Bowen,)

The biological factors in a person are in their DNA and can not be altered. Certain genes can be passed to a person throughout the lifespan as they can be turned on and turned off. Biological factors include things like eye color, hair color, gastrointestinal diseases, arthritis, and obesity. Phenotypes are associated with biological traits as they are observable traits. Phenotypes make up the individual appearance and products of behavior.

Psychological traits are associated with mental illnesses and personality traits. Two personality traits are extrovert and introvert. An extrovert is someone who is outgoing in social situations and sometimes known as "the life of the party". On the other hand, an introvert is someone who is shy and keeps to themselves. These people tend to focus on their own feelings and thoughts and avoid being in social situations. Sometimes an introvert person will have an offspring that is extrovert because of how they were raised and the child sees that more or had to be shy and they think that they should be shy. However, sometimes the child branches out and creates their own behaviors. Depression and anxiety are two of the mental illnesses associated with psychological traits. A person with a general anxiety disorder has a hard time living in reality and worries the worst. They think a disaster is going to happen and are constantly overwhelmed about money, their health, and work or school. A college-age student has a higher

Focused Genograms Rita DeMaria, Gerald R. Weeks, Larry Hof, 2013-06-17 The interpersonal relationships that make up family life are a complex web between many individuals spanning several generations at one time This web is further complicated by the influence of other factors such as culture and gender It can be a daunting task for a therapist to unravel this tangle and understand the specific dynamics and individual development within the family The Multifocused Family Genogram MFG is a powerful tool that allows the therapist to record and structure these different elements that make up the family system By combining the Basic Genogram the Family Map and several Focused Genograms the MFG provides a clear picture of dynamic family history that aids in individual and family assessment Focused Genograms provides a thorough account of the use of MFGs in family therapy and practice The authors present a clinically useful method for collecting the information in key areas of individual and family functioning needed to create Focused Genograms In addition the authors carefully explain the diagnostic use and therapeutic applications of this tool The book is supplemented by extensive examples of Focused Genograms Family Maps and Time Lines used in MFG construction Suggested readings listed at the close of each chapter provide links between techniques fully described in the book and other therapeutic techniques beyond the scope of this work A thorough presentation of innovative methods for using Focused Genograms makes this an important text for students of marriage and family therapy as well as an indispensable resource for professionals

EXPLORING AND DEVELOPING THE USE OF ART-BASED GENOGRAMS IN FAMILY OF ORIGIN THERAPY Deborah Schroder, 2015-06-30 Exploring and Developing the Use of Art Based Genograms in Family of Origin Therapy was written to share the almost magical understandings that literally become visible when we use symbols metaphors and imagery in the genogram process The traditional genogram

process is invaluable in helping people understand family history and who was present in generations of family life An astonishing movement into depth of meaning happens when people are asked to create a visual image or symbol for their family members and ancestors Suddenly through metaphor we can see the emotional impact and the qualities of relationships that these images and therefore family members hold Unspoken or hidden family beliefs patterns and rules suddenly surface from the depths of the art freeing one from following along unconsciously and opening up the possibilities for choice as one moves into the future The foundation of the art based genogram provides abundant information about the family generational theme that is revealing and insightful for the art maker It allows support for a creative depiction of the art maker s ancestral pains sufferings joys celebrations and life s viewpoints This creative endeavor reveals therapeutic information that art makers can integrate into their current present day lives Major topics include 1 the historical use of the genogram 2 the family of origin and unspoken or hidden family beliefs 3 how to create art based genograms 4 therapeutic uses in individual therapy 5 therapeutic uses in couples and family work 6 how to welcome children to the process 7 the intergenerational flow of special issues and 8 a wide variety of uses for art based genograms Case examples are used to illustrate specific points throughout the book This unique text will be a valuable resource for art therapists counselors and other mental health professionals

Genograms Monica McGoldrick,Randy Gerson,Sylvia Shellenberger,1999 Widely used by both family therapists and family physicians the genogram is a graphic way of organizing the mass of information gathered during a family assessment and finding patterns in the family system This popular text now updated and expanded provides a standard method for constructing a genogram doing a genogram interview and interpreting the results Both entertaining and instructive Genograms is an ideal way to introduce all those involved in family treatment family therapists physicians nurses social workers pastoral counselors and trainees in these fields to this essential assessment and intervention tool
