Pigmented ink printer

The Linx 6800 Spectrum makes a real technological step forward in high contrast printing. It offers the benefits of a highly advanced pigmented ink printing solution combined with the ease of use, high performance and robust engineering offered by the Linx 6800.

The Linx 6800 Spectrum has been designed to deliver a specially-formulated range of Linx pigmented inks, offering an advanced printer coupled with high performance, pigmented inks. The Linx 6800 Spectrum is capable of printing barcodes, logos and symbols, and up to four lines of text, as well as providing coding and printing functions to meet marking requirements across a whole range of applications.

Key advantages of the Linx 6800 Spectrum:

- **Intelligent start-up** – unlike many other pigmented ink printers, the Linx 6800 Spectrum starts up after lengthy shutdowns without the need for cleaning, draining or for a service visit.
- **Reliability** – with its innovative ink circulation system and ink tank design the Linx 6800 Spectrum offers supreme reliability and print consistency. The printer does not use mechanical stirrers or factory air, so eliminates problems associated with these.
- **Reduced cost of ownership** – Linx has included a robust, long-life pump, which delivers consistent performance over a long period of time, reducing maintenance and downtime costs significantly.

These benefits are in addition to the many others which come as standard on the Linx 6800:

- **Ease of use** – thanks to the Windows-style user interface.
- **Robust design** – the IP65-rated stainless steel enclosure provides effective operation in virtually any production environment.
- **High performance** – as a result of specially-designed printheads, auto power down function and automatic control of critical printer functions.
- **Flexible printing capability** – including character rotation ("tower" printing), sequential text and numbering, barcodes and graphics.
