Martin ShowDesigner

Martin Show Designer 6 is the best real-time 3D visualizer on the market. Its newly designed 3D engine provides photorealistic rendering in real-time using the latest DirectX technology.

On MSD 6's user-friendly timeline control you can create complex presentations including lighting, video, animated scenery, camera motion and animated smoke effects.

The user interface has been completely redesigned with a modern look, offering you a rapid workflow to quickly drag and drop fixtures, objects and textures as well as instant access to any object's properties.

MSD 6™ is Vectorworks-friendly and through a Windows-based plugin, Vectorworks files can be exported and imported into MSD 6. The intelligent system learns from previous conversions to choose the right MSD fixture type to replace Vectorworks fixtures.

MSD 6 also comes with its own 3D modeling app to quickly build objects and materials or import DXF, DWG and native SketchUp formats along with all textures and UV maps.

MSD 6 is available in two versions: MSD 6 Pro™ and MSD 6 Lite™. Whilst the Pro version has every possible feature to pre-visualize lighting and video in 3D, integrate moving scenery, create video animation and paper presentation, the MSD 6 Lite version offers essential features to do 3D pre-visualization.

Working closely with an array of lighting professionals from both the entertainment and architectural worlds, Martin has condensed the key elements in the MSD software into MSD 6 Lite, while the more advanced features such as static rendering, video rendering, dynamic objects and paperwork module are found in the Pro version.

MSD 6 Lite will appeal to users who simply need to program or visualize shows dynamically.

By separating MSD 6 into two different packages, Martin gives you a choice that will let you select exactly what you need.

If your needs change, you can upgrade your version via the online store at www.martinshowdesigner.com.
