Hard Dollar infrastructure software enables:

- Conceptual to detailed productivity based estimating.
- Bidding and tender processing.
- Integrated cost and resource loaded schedules.
- Automated timesheet collection.
- Productivity, equipment and material tracking with web-based analytical dashboards.
- Reporting for anywhere access.
- Support for DOT and governmental websites eliminates data entry and ensures faster and accurate bids.

Gain an A+B Bidding Edge

A+B bidding continues to gain popularity for public works projects, and is forcing contractors to re-think estimating and bidding methodologies. In A+B bids, the contractor submits both a price (the "A" portion) and a duration (the "B" portion) as part of the bid package. The state or other government agency financing the project establishes a daily cost associated with the job, and multiplies that daily cost by the duration bid by each contractor. The contractor with the best combination of cost and duration - A+B - is awarded the work.
