*La question nationale en Europe du Sud-Est* Bashkim Iseni, 2008 Cet ouvrage constitue une synthèse pour comprendre les racines historiques de la tournure particulièrement dramatique du phénomène national dans l'aire culturelle albanaise du Kosovo et de Macédoine et plus généralement dans la région des Balkans Il se fonde sur une perspective historique nourrie des apports de la science politique et de la sociologie et a pour but de donner des outils d'analyse visant à clarifier la problématique de cette région de l'Europe L'auteur s'est engagé dans une histoire de longue durée en montrant la fois les erreurs d'interprétation qui sont inscrites dans le discours historiographique nationaliste sur le passé le plus ancien et la force de certaines empreintes culturelles façonnées par cette histoire Il analyse la problématique complexe des identités culturelles au sein des Balkans l'imbrication des rapports sociaux et des dominations politiques A travers une approche constructiviste il veut rendre compte du phénomène national et cherche à montrer très concrètement quand pourquoi et comment a débuté l'entreprise de construction de l'identité nationale albanaise et en quoi elle est devenue source de conflits nationalistes qui se poursuivent jusqu'à nos jours

**(Albanian Language)** 01-01-2021, Një dekadë e mendimit ekonomik dhe politik Abdylmenaf Bexheti, 2006 Diversity of Capitalism in Central and Eastern Europe Eric Magnin, Nikolay Nenovsky, 2022-07-13 This book explores the hypothesis of the emergence of a dependent capitalism in Central and Eastern Europe In a first theoretical part this book presents the main approaches that structure the field of comparative capitalism and then examines this model shaped by the inflow of foreign capital In an original way it proposes to integrate the form of the monetary regime into the dependent capitalism analysis and to extend it to Balkan countries The monetary regime is seen as complementary to the other elements of the institutional configuration of dependent capitalism In the second part the authors adopt a historical and

empirical perspective First they demonstrate how dependent capitalism has emerged in Central and Eastern Europe and the Baltic States over the last 30 years as part of the process of socio economic transformation that began in 1990 The crisis of 2008 was an indicator of this dependence on Western capital Secondly they extend the analysis to the Balkan countries and show that dependence is even stronger for them particularly in the monetary area as evidenced by the implementation of currency boards or euroization phenomena This book is of interest to academics and students as well as to business and economic policy makers
