FOREWORD

This manual contains service procedures for the Ford Series 764 Backhoe. Detailed information is given in description and operation, trouble shooting, tests and adjustments, maintenance, lubrication and specifications.

Installation of the boom location, the steering kit, and the hydraulic kits are not covered in this publication. Refer to the appropriate operating manual for installation information.

The service procedures in this manual are the most apparent, practical, and efficient methods; however, a procedure may not prove to be the most desirable in all situations. Alternate methods are sometimes required, depending upon the tools and equipment available.

Reference to the direction in the operation and servicing of the backhoe is made as viewed from the seat in the backhoe operating position. When referring parts, left and right are measured and referenced as facing in the direction of tractor forward travel.
