McKeen,2016-03-31 Part of a series of data rich handbooks within the Plastics Design Library *Fatigue and Tribological Properties of Plastics and Elastomers* provides a comprehensive collection of graphical multipoint data and tabular data covering the fatigue and tribological performance of plastics The handbook is structured by grouping together plastics of similar polymer types into ten chapters Each of these chapters is split into two sections Fatigue Properties and Tribological Properties and together they provide a compendium of several hundred graphs and charts supplying the core data needed by engineers and scientists on a day to day basis The data for this third edition has been updated to cover upwards of five years since the previous edition was published and also includes an entirely new chapter covering sustainable and biodegradable polymers The book also includes an extensive introductory section covering fatigue what it is and how it is measured the fundamentals of tribology polymer chemistry and plastics composition These chapters also provide readers with a full understanding of the data section and how to put it to use as a hard working information tool

*Editor & Publisher* ,1929 The fourth estate [World Development Report 2018](#) World Bank Group,2017-10-16 Every year the World Bank s World Development Report WDR features a topic of central importance to global development The 2018 WDR LEARNING to Realize Education s Promise is the first ever devoted entirely to education And the time is right education has long been critical to human welfare but it is even more so in a time of rapid economic and social change The best way to equip children and youth for the future is to make their learning the center of all efforts to promote education The 2018 WDR explores four main themes First education s promise education is a powerful instrument for eradicating

poverty and promoting shared prosperity but fulfilling its potential requires better policies both within and outside the education system Second the need to shine a light on learning despite gains in access to education recent learning assessments reveal that many young people around the world especially those who are poor or marginalized are leaving school unequipped with even the foundational skills they need for life At the same time internationally comparable learning assessments show that skills in many middle income countries lag far behind what those countries aspire to And too often these shortcomings are hidden so as a first step to tackling this learning crisis it is essential to shine a light on it by assessing student learning better Third how to make schools work for all learners research on areas such as brain science pedagogical innovations and school management has identified interventions that promote learning by ensuring that learners are prepared teachers are both skilled and motivated and other inputs support the teacher learner relationship Fourth how to make systems work for learning achieving learning throughout an education system requires more than just scaling up effective interventions Countries must also overcome technical and political barriers by deploying salient metrics for mobilizing actors and tracking progress building coalitions for learning and taking an adaptive approach to reform

**The American Stationer** ,1887 [Sub-Saharan Africa's Risk Perception Premium: In the Search of Missing Factors](#) William Gbohoui,Rasmané Ouedraogo,Yirbehogre Modeste Some,2023-06-23 Policymakers from the sub Saharan Africa SSA region often flag a mispricing of their sovereign debt presumably originating from a perception risk by international investors that lead to unjustifiably high borrowing costs Against this background this paper explores the extent to which a potential SSA premium exists in the financial markets following a broader two fold approach Firstly using a sample of 1592 international primary sovereign fixed coupon bonds issued between 2003 2021 from Bond Radar by 89 countries we find that SSA countries pay significantly higher coupon at issuance compared to their peers from other regions Secondly we assess whether there is any bias against SSA countries in the secondary market that would result in higher refinancing cost Based on an unbalanced panel of quarterly data covering 107 countries over 1990 2022 we find that SSA countries pay higher refinancing costs in the secondary market The paper further explores whether there are other factors overlooked by the literature that matter for the risk pricing by international investors In that respect we explore the sensitivity of spreads to some structural dimensions where SSA countries face acute challenges the transparency of budget process the importance of the informal sector the level of financial development and the quality of public institutions The results show that the excess premium estimated for SSA countries vanishes when these structural factors are accounted for in the regressions
