Challenges of European External Energy Governance with Emerging Powers Michèle Knodt, Nadine Piefer, 2016-03-03 In a multipolar world with growing demand for energy not least by Emerging Powers such as Brazil India China or South Africa BICS questions of EU external energy governance would at first hand appear to be a high priority Yet reality tells a different story the EU s geographical focus remains on adjacent countries in the European neighbourhood and on issues related to energy security Despite being Strategic Partners and engaging in energy dialogues it seems that the EU is lacking strategic vision and is not perceived as a major actor in energy cooperation with the BICS Thus political momentum for energy cooperation and joint governance of scarce resources is vanishing Resulting from three years of international interdisciplinary research cooperation among academics and practitioners in Europe and the BICS countries within a project funded by the Volkswagen Foundation this volume addresses one of the greatest global challenges Specific focus lies on the bilateral energy dialogues and Strategic Partnerships between the EU and Emerging Powers regarding bilateral inter and transnational energy cooperation Furthermore the analysis provides policy recommendations in order to tap the full potential of energy cooperation between the EU and Brazil India China and South Africa

Chinese Perspectives on the International Rule of Law Matthieu Burnay, 2018-07-27 This insightful book investigates the historical political and legal foundations of the Chinese perspectives on the rule of law and the international rule of law Building upon an understanding of the rule of law as an essentially contested concept this book analyses the interactions between the development of the rule of law within China and the Chinese contribution to the international rule of law more particularly in the areas of global trade and security governance

Focus On: 100 Most Popular 21st-century English Actresses Wikipedia contributors, Securitization of the Umbrella Movement in Hong Kong Cora Y.T. Hui, 2019-07-05 In recent years the city many hoped would help democratize China has instead become a research setting in

which to study China's increasing intolerance of dissent. Since Hong Kong's return to Chinese sovereignty in 1997, China's treatment of Hong Kong could be divided into three stages: non-intervention, intervention, and securitization. If the July 1 march in 2003 is a watershed that marked Beijing's change from non-intervention to intervention, this book suggests that the Umbrella Movement in 2014 is another watershed that marked Beijing's change from intervention to securitization. This book is a theoretically driven case study of the Umbrella Movement, a massive sit-in that paralyzed key business and retail districts for 79 days in Hong Kong in 2014. Many Hongkongers believe that they have the right to a fair election of the chief executive, and Beijing's insistence on vetting candidates prompted the outbreak of the Umbrella Movement. Drawing insights from the securitization theory and fear appeal literature, the book proposes the framework of security appeal. It argues that the outbreak of the Umbrella Movement resulted from a premature use of hard repression that is before the government convinced the general public that the Umbrella Movement was a threat. The eventual successful securitization entails a general acceptance of the threatening nature of the Umbrella Movement and agreement with its crackdown. This book concludes that one of the consequences of the securitization of the Umbrella Movement is Beijing's eventual switch to the policy of patriocracy, a system that allocates power and resources based on one's professed patriotism in lieu of One Country Two Systems. The policy implications and theoretical and methodological contributions of this book will be of interest to scholars and students of security studies, Chinese politics, and various social science disciplines including political science, psychology, criminology, and sociology.

The Battle for China's Spirit Sarah Cook, 2017-05-16. *The Battle for China's Spirit* is the first comprehensive analysis of its kind, focusing on seven major religious groups in China that together account for over 350 million believers: Chinese Buddhism, Taoism, Catholicism, Protestantism, Islam, Tibetan Buddhism, and Falun Gong. The study examines the evolution of the Communist Party's policies of religious control, how they are applied differently to diverse faith communities, and how citizens are responding to these policies. The study, which draws on hundreds of official documents and interviews with religious leaders, lay believers, and scholars, finds that Chinese government controls over religion have intensified since November 2012, seeping into new areas of daily life. Yet millions of religious believers defy official restrictions or engage in some form of direct protest at times scoring significant victories. The report explores how these dynamics affect China's overall social, political, and economic environment while offering recommendations to both the Chinese government and international actors for how to increase the space for peaceful religious practice in a country where spirituality has been deeply embedded in its culture for millennia.

Bradstreet's, 1916 **The Commercial and Financial Chronicle**, 1916 **The Financial Review**, 1918 [Israel, Strategic Culture and the Conflict with Hamas](#) Niccolò Petrelli, 2017-10-12. This book offers a comprehensive overview of the impact of strategic culture on Israeli military operations against Hamas between 1987 and 2014. It has often been argued that Israeli policies and military operations against Hamas have proven tactically effective but strategically disastrous, allowing the Islamic Resistance Movement to grow.

from a small spin off of the Muslim Brotherhood into a powerful military and political actor in the Palestinian arena This book argues contrary to this opinion that Israel was effective in its struggle against the Islamic Resistance Movement between 1987 and 2014 as the Jewish state ultimately managed to deny the majority of Hamas strategic aims and to preserve a position of relative strength By relying on a synthesis of primary sources interviews memoirs scholarly and professional military studies and information gathered from the media the study delivers a careful and comprehensive analysis of the conflict It provides an historical outline of the development of the Israeli strategic culture and analyzes its impact on the process of military adaptation during the First Intifada the Oslo Peace Process the al Aqsa Intifada and the Gaza wars Finally the book illuminates how the Israeli strategic culture moulded a distinctive way of war that though marked by successes and failures ultimately proved effective against Hamas This book will be of much interest to students of strategic studies Middle Eastern politics counter insurgency counter terrorism and security studies in general *George Broomhall's Corn Trade* *News* ,1911 *The Statist* ,1897 **Dun's Review** ,1918 **Dun & Bradstreet Monthly Review** ,1918 *Journal of the American Medical Association* American Medical Association,1916 **Post Magazine and Insurance Monitor** ,1928 *Live Stock Journal* ,1888 *United States Investor* ,1908 **Engineering and Mining Journal** ,1896
