Grade Boundaries 2014:

MYP - New Directions Jeff Thompson, Judith Fabian, Mary Hayden, 2016-06-01 The new IB Middle Years Programme MYP curriculum for 11 to 16 year olds came into effect in September 2014 and will strengthen the IB's continuum of learning. This edited collection will provide support for all those involved in the current period of preparation for implementation of the new programme. The chapters are written by experienced practitioners from a range of relevant standpoints about different aspects of the MYP. MYP New Directions examines the changes to the programme that have been introduced as well as those that are currently in progress and highlights challenges and opportunities for the future. Contributors: Judith Fabian, Conrad Hughes, Alexandra Holland, Lance King, Marjorie Lope, Patricia Villegas, Gareth Hegarty, Hege Myhre, Michael Huber, Oyndrilla Mukherjee, Anthony Hemmens, and Gillian Ashworth. *A Research Agenda for Environmental Geopolitics* Shannon O'Leary, 2020-02-28 Challenging the mainstream view of the environment as either threatening or valuable, this book considers how geographic knowledge can be applied to offer a more nuanced understanding. Framed within geopolitics and using a range of methodologies, the chapters encapsulate different approaches to demonstrate how selective forms of knowledge measurement and spatial focus both embody and stabilize power, shaping how people perceive and respond to changing features of human environment interactions.

Each chapter focuses on a particular aspect of the teaching and learning process, from preparing to teach the subject for the first time to measuring student progress over time in an approachable yet rigorous way. This practical guide will help you to improve your knowledge of specifications and syllabuses at GCSE and AS/A Level, provide the best pedagogic approaches for teaching sociology, think about learning styles, skills and capacities in relation to teaching sociology, gain practical ideas and activities for improving students' argumentation, evaluation and essay writing skills, apply strategies for teaching abstract sociological theories and concepts, make the teaching of research methods engaging and interesting, deal with practical issues such as planning and assessing learning, encourage students' independent learning and revision, connect ICT, social networking websites and the mass media to further students' sociological knowledge, tackle the thorny issues of politics and controversial topics. Drawing on the author's own experiences, Teaching Sociology Successfully helps readers to identify, unpack and negotiate challenges common to those teaching sociology. Complete with a variety of pedagogical resources, it provides tasks and further reading to support CPD and reflective practice. This book will be an invaluable tool for students on PGCE social science training courses as well as School Direct candidates and undergraduates studying BEds in similar fields.
