Granite City Math Vocabulary:

Mathematics, the Common Core, and RTI Dolores Burton, John Kappenberg, 2013-09-27 Don't let the revolution in math education pass your teachers by. By now most teachers have a shelf full of books, articles, and reports on the Common Core and RTI. But where's the resource that addresses how the two fit together? Individually the Common Core and RTI are formidable enough. Together they create a perfect storm of challenges with most teachers left wondering where to turn first. Finally here's a guide that distills the central elements of the Common Core and RTI into a single, manageable resource that provides strategies for serving all students. You will find Real world scenarios based on actual school-based issues, Multiple classroom-ready work samples, Content area applications of RTI including math vocabulary and literacy, A focus on instructional technology with references to online resources in every chapter, Preparation for future developments in state and national educational policy, With additional guidance on students with special needs, behavioral issues, English language learners, and parent involvement, this all-in-one resource gives your teachers a distinct advantage in providing the superior math instruction all students deserve. Burton and Kappenberg have done a great service to teachers by combining Common Core and RTI into one easy-to-use text. Deb Bible, RTI Interventionist, Dundee Highlands School, West Dundee, IL. Anyone involved in the development of mathematics teachers and who is currently a mathematics teacher will find this book to be a resource to effectively unify instructional strategies to teach all students. Satasha Green, Dean of Education, New York Institute of Technology.

Language Arts, Gr. 3-4, eBook**, Trisha Callella, 2006-03-07. The activities in this book consist of a series of question and answer cards. Students are actively engaged as each player answers a question and then asks the next one. When students reach the last card, they will find that it refers back to the first card. Activities require minimal preparation but result in maximum participation and effort.
