| <p>2.4 Roles and Powers of the President</p> | <p>Article II — The president can recommend legislative measures to congress, veto or approve proposed bills from article I, and convene or adjourn the houses of congress. The framers also created a system by which the Electoral College chooses the president every four years.</p> | <p>Formal Powers — the president exercises the formal powers of the office those defined in article II</p> | <p>Informal Powers — As well as the formal powers there are political powers attributed to be inherent in the office to achieve policy goals.</p> |
| <p>Chief Legislator — term for the president as architect of public policy and the one who sets the agenda for congress</p> | <p>Powers of Persuasion — the president uses a variety of skills to win support for a policy agenda. The president will use bargaining and persuasion to get congress to agree with and pass the legislative agenda</p> | <p>Veto — To reject or prohibit action and laws of other government officials checks and balances a system that balances the distribution of power in a government</p> | <p>Pocket Veto — A veto taking place when congress adjourns within 10 days of having submitted to a bill to the president who simply lets it die by neither signing nor vetoing it</p> |
| <p>Think as a Political Scientist: Describe trends in data</p> <p>Practice: Study the table on page 142, which shows trends in presidential vetoes at different times in the nation's history. Then, offer one reason why trends might have varied so greatly.</p> <p>Response: A president who uses the veto infrequently is often viewed as a successful executive because policy goals are accomplished easily. Conversely, a president who vetoes many bills can be regarded as less successful and might have difficulty implementing his policy goals.</p> | <p>Line-item Veto — This measure would empower an executive to eliminate a line of spending from an appropriations bill or a budgeting measure, allowing the president to veto part, but not all, of the bill.</p> | <p>Commander in Chief — The role of the president as supreme commander of the military forces of the United States and of the state National Guard units when they are called into federal service</p> | |
| <p>Executive Agreement — It is a simple contract between two heads of state: the president and a foreign minister, king, or president of another nation.</p> | <p>Executive Powers and Policy — The Panama Canal - The policies of two presidents regarding the Panama Canal show two very different ways of using the powers of the executive branch to advance a policy agenda and interact with Congress</p> | <p>Executive Orders — empowers the president to carry out the laws to administer the government. Under a colonial law or monetary appropriation, which require congress to act, a presidential directive falls within executive authority.</p> | <p>Signing Statements - These statements explain their interpretation of a bill, their understanding of what is expected of them to carry it out, or just a commentary on the law.</p> |
| <p>Executive Privilege - The right to withhold information or their decision-making process from another branch, especially Congress.</p> | <p>Essential Question: How can a president implement a policy agenda? President can exercise formal powers of the office those in article II as well informal powers to achieve policy's agenda.</p> | | |
