**DESIGNOLOGY. A Designer is a Scientist who creates an Emotional Connection between a Brand and its Audiences** Yasushi Kusume, 2016-10 Design is an essential element of business It maximises the work of internal and external experts It brings focus to foresight ideas to innovation and expression to marketing In short it helps companies grow and prosper Yet many businesses ignore the potential of design They fail to make full use of the competences and skills designers have to offer One reason for this is that there is no established academic science of design This book takes steps to fill that gap by offering its own design science a science called Designology Designology should embrace a wide range of disciplines from neuroscience psychology and sociology to anthropology ethnology and behavioural science This book however decides to focus on just two of these disciplines neuroscience and psychology to demonstrate that design is a science rather than an art and that designers equipped with the knowledge they offer can provide a credible expert and above all effective contribution to any business Designology the science of connecting a brand to its audience
