

of Japan's competition and the foreign industries success. From that point on, Deming's teachings and advice has been widely accepted by American industrialists and business-

Background (1990) acknowledges that Deming's teachings have significantly improved productivity, and that his philosophy and approach has transformed American companies into efficient organizations. Based on Deming's framework, the TQM dimensions and organizational cultural factors: customer satisfaction, organizational culture, teamwork, leadership commitment and operational performance are presented in the matrix.

Customer Satisfaction

Deming (1990) might just predict reliability, which means that an organization must follow specific practices that impact the results during the product development process. He asserts that the value of thorough research of analysis (i.e. surveying both likes and dislikes) and worker management cooperation (e.g. increased training, expanding employee participation, reducing complexity etc.). Theoretically, by following this style of management, organization's

benefit improved from customer purchases and loyalty. Deming states that by taking into consideration customer ideas, requirements and/or requests, and involving employees in decision making processes, companies will experience short-cuts and long-term benefits.

Overall, Deming's theory supports the "customer" focus approach, emphasizes product quality
