*Environmental Performance and Social Inclusion in Informal Settlements* Gabriele Masera, Massimo Tadi, 2020-05-18 This book discusses the potential of a systemic and multidisciplinary design approach to improve urban quality health livability and inclusiveness for people living in informal settlements In most instances attempts to address informal settlements lack an adequate assessment of their impact on the wider built environment and implementation of the UN s Sustainable Development Goals The Integrated Modification Methodology IMM introduced here offers a systematic multidisciplinary design tool encompassing several of the aspects that define the environmental performance of urban systems The book also demonstrates the application of the methodology to an informal settlement proving its potential to guide systemic urban transformations also in urban areas lacking formal planning The case study investigated is in the Rocinha favela in Rio de Janeiro which is characterized by poor water quality lack of drainage and sanitation systems and very few green spaces Based on a rigorous methodology the process described here can also be applied in similar contexts around the world

**Living with Insecurity in a Brazilian Favela** R. Ben Penglase, 2014-09-01 The residents of Caxambu a squatter neighborhood in Rio de Janeiro live in a state of insecurity as they face urban violence *Living with Insecurity in a Brazilian Favela* examines how inequality racism drug trafficking police brutality and gang activities affect the daily lives of the people of Caxambu Some Brazilians see these communities known as favelas as centers of drug trafficking that exist beyond the control of the state and threaten the rest of the city For other Brazilians favelas are symbols of economic inequality and racial exclusion Ben Penglase s ethnography goes beyond these perspectives to look at how the people of Caxambu themselves experience violence Although the favela is often seen as a war zone the residents are linked to each other through bonds of kinship and friendship In addition residents often take pride in homes and public spaces that they have built and used over generations Penglase notes that despite poverty their lives are not completely defined by illegal violence or deprivation He argues that urban violence and a larger context of inequality create a social world that is deeply contradictory and ambivalent The unpredictability and instability of daily experiences result in disagreements and tensions but the residents also experience their neighborhood as a place of social intimacy As a result the

social world of the neighborhood is both a place of danger and safety

**Favela Resistance** Timo Bartholl, Christos Filippidis, Antonis Vradis, Minhocas Urbanas, 2024-12-31 Food is at the heart of security peace and health But millions live without access to basic nutrition and billions live without control or understanding of where their food will come from and how it is produced Nowhere is this problem clearer than in the favelas of Rio de Janeiro Through meticulous research community engagement and direct action within the Mar region a cluster of seventeen favela communities in the northern zone of Rio Antonis Vradis Timo Bartholl and Christos Filippidis have created a shocking inspiring and revolutionary collection of essays that go beyond the question of food in the Brazilian urban periphery and highlights critical issues concerning state control pacification solidarity and grassroots organizing Favela Resistance is a lens through which we can understand how the state creates marginalized lives in cities throughout the world under the auspices of security and emergency support The link between food and public security is intertwined with decades long pacification operations in the favelas of Rio This fight for food sovereignty shows how local production structures and solidarity networks have radically rethought and reconfigured the relationship between cities and farms providing a map of how impoverished populations can organize resistance create health and community and fight literally from the ground up for a better world

*Minoritarian Liberalism* Moisés Lino e Silva, 2022-04-04 A mesmerizing ethnography of the largest favela in Rio where residents articulate their own politics of freedom against the backdrop of multiple forms of oppression Normative liberalism has promoted the freedom of privileged subjects those entitled to rights usually white adult heteronormative and bourgeois at the expense of marginalized groups such as Black people children LGBTQ people and slum dwellers In this visceral ethnography of Rocinha the largest favela in Rio de Janeiro Brazil Moisés Lino e Silva explores what happens when liberalism is challenged by people whose lives are impaired by normative understandings of liberty He calls such marginalized visions of freedom minoritarian liberalism a concept that stands in for overlapping alternative modes of freedom be they queer favela or peasant Lino e Silva introduces readers to a broad collective of favela residents most intimately accompanying Natasha Kellem a charismatic self declared travesti a term used in Latin America to indicate a specific form of female gender construction opposite to the sex assigned at

birth While many of those the author meets consider themselves queer others are treated as abnormal simply because they live in favelas Through these interconnected experiences Lino e Silva not only pushes at the boundaries of anthropological inquiry but also offers ethnographic evidence of non normative routes to freedom for those seeking liberties against the backdrop of capitalist exploitation transphobia racism and other patterns of domination

**Slum Tourism** Fabian Frenzel,Ko Koens,Malte Steinbrink,2012-06-14 Slum tourism is a globalizing trend and a controversial form of tourism Impoverished urban areas have always enticed the popular imagination considered to be places of otherness moral decay deviant liberty or authenticity Slumming has a long tradition in the Global North for example in Victorian London when

the upper classes toured the East End What is new however is its development dynamics and its rapidly spreading popularity across the globe Township tourism and favela tourism have currently reached mass tourism characteristics in South Africa and in Rio de Janeiro Brazil In other countries of the Global South slum tourism now also occurs and providers see huge growth potential While the morally controversial practice of slum tourism has raised much attention and opinionated debates in the media for several years academic research has only recently started addressing it as a global phenomenon This edition provides the first systematic overview of the field and the diverse issues connected to slum tourism This multidisciplinary collection is unique both in its conceptual and empirical breadth Its chapters indicate that global slumming is not merely a controversial and challenging topic in itself but also offers an apt lens through which to discuss core concepts in critical tourism studies in a global perspective in particular poverty power and ethics Building on research by prolific researchers from ten different countries the book provides a comprehensive and unique insight in the current empirical practical and theoretical knowledge on the subject It takes a thorough and critical review of issues associated with slum tourism asking why slums are visited whether they should be visited how they are represented who is benefiting from it and in what way It offers new insights to tourism s role in poverty alleviation and urban regeneration power relations in contact zones and tourism s cultural and political implications Drawing on research from four continents and seven different countries and from multidisciplinary perspectives this ground breaking volume will be valuable reading for students researchers and academics interested in this contemporary form of tourism

**The Social Life of Economic Inequalities in Contemporary Latin America** Margit Ystanes, Iselin Åsedotter Strønen, 2017-10-25 This book is open access under a CC BY 4.0 license This edited volume examines how economic processes have worked upon social lives and social realities in Latin America during the past decades Through tracing the effects of the neoliberal epoch into the era of the so called pink tide the book seeks to understand to what extent the turn to the left at the start of the millennium managed to challenge historically constituted configurations of inequality A central argument in the book is that in spite of economic reforms and social advances on a range of arenas the fundamental tenants of socio economic inequalities have not been challenged substantially As several countries are now experiencing a return to right wing politics this collection helps us better understand why inequalities are so entrenched in the Latin American continent but also the complex and creative ways that it is continuously contested The book directs itself to students scholars and anyone interested in Latin America economic anthropology political anthropology left wing politics poverty and socio economic inequalities

**Cities From Scratch** Brodwyn Fischer, Bryan McCann, Javier Auyero, 2014-02-28 This collection of essays challenges long entrenched ideas about the history nature and significance of the informal neighborhoods that house the vast majority of Latin America s urban poor Until recently scholars have mainly viewed these settlements through the prisms of crime and drug related violence modernization and development theories populist or revolutionary politics or

The Sun on My Head Geovani Martins, 2019-06-11 A bestselling literary sensation in Brazil a powerful debut short story collection about favela life in Rio de Janeiro In The Sun on My Head Geovani Martins recounts the experiences of boys growing up in the favelas of Rio de Janeiro in the early years of the twenty first century Drawing on his childhood and adolescence Martins uses the rhythms and slang of his neighborhood dialect to capture the texture of life in the slums where every day is shadowed by a ubiquitous drug culture the constant threat of the police and the confines of poverty violence and racial oppression And yet these are also stories of friendship romance and momentary relief as in Rol zim where a group of teenagers head to the beach Other stories all uncompromising in their realism and yet diverse in narrative form explore the changes that occur when militarized police occupy the favelas in the lead up to the World Cup the cycles of violence in the narcotics trade and the feelings of invisibility that define the realities of so many in Rio s underclass The Sun on My Head is a work of great talent and sensitivity a daring evocation of life in the favelas by a rising star rooted in the community he portrays

In the Favela Angelina S. McCoy, 2015 Brazilian favelas shantytowns or slums first formed in the late nineteenth century when soldiers and former slaves could not afford housing in urban cities The growth of the favelas accelerated in the 1940s when Brazilians migrated from rural towns to find jobs Several artists have worked in these communities in Brazil including Brazilian artists Helio Oiticica 1938 1980 Vik Muniz b 1961 and French artist JR b 1983 Oiticica began as a painter later moving toward more overtly political and radical creations such as his wearable sculptures in the 1960s and 1970s Muniz formed portraits of favela community members in his Pictures of Garbage series 2008 and JR also photographed people of the favela in his Women Are Heroes project 2008 2009 All three artists engage with marginal communities to create artworks and cultural experiences increasing the visibility of socio economical issues in the favela A close analysis of each artist s body of work in regards to authorship audience and participation aids in discussing how these projects function within the favela community Oiticica s Parangoles combine sculpture and performance in order to catalyze an experience in which the body and art become one Nicolas Bourriaud s theories of relational art lend to an idea of a convivial atmosphere for the participants Claire Bishop s idea of antagonism conversely presents itself through Oiticica s audience Conviviality also

plays a part in Muniz's project in Rio where he shares authorship with participants in order to directly impact their lives through proceeds. Muniz appropriates art historical works in the form of garbage, creating new forms of beauty. The participants experience materials they work with each day in a new way, aiding in the production of large mosaics. The final photographic works sell at auction, and Muniz donates the proceeds to the favela community. His ability to directly impact a community of participants relates to a broader question of philanthropic projects. JR's monumental pasted photographs highlight women of another favela community. He uses participation to create discussion surrounding these sociopolitical and economical issues. JR allows for a global audience to view his work through installations and web-based media. JR's international notoriety aids in spreading awareness of the women's stories and importance of supporting their own community. All three artists reconfigure how art can change perspectives of the world and also raise more questions about the importance of participation in marginal communities. Each project approaches social issues in the favela differently, demonstrating how participatory art provides an array of possible impacts.
