Young Children and Families in the Information Age Kelly L. Heider,Mary Renck Jalongo,2014-12-05 This edited book presents the most recent theory research and practice on information and technology literacy as it relates to the education of young children Because computers have made it so easy to disseminate information the amount of available information has grown at an exponential rate making it impossible for educators to prepare students for the future without teaching them how to be effective information managers and technology users Although much has been written about information literacy and technology literacy in secondary education there is very little published research about these literacies in early childhood education Recently the National Association for the

Education of Young Children and the Fred Rogers Center for Early Learning and Children's Media at Saint Vincent College published a position statement on using technology and interactive media as tools in early childhood programs. This statement recommends more research to better understand how young children use and learn with technology and interactive media and also to better understand any short and long term effects. Many assume that today's young children are digital natives with a great understanding of technology. However, children may know how to operate digital technology but be unaware of its dangers or its value to extend their abilities. This book argues that information and technology literacy include more than just familiarity with the digital environment. They include using technology safely and ethically to demonstrate creativity and innovation to communicate and collaborate to conduct research and use information and to think critically, solve problems and make decisions.

Is your child safe online? Pamela Whitby, 2011-10-28. Is your child safe online? Do you know what information they access on a daily basis? The chances are that you are like most parents and the answer is no or at best I'm not sure. These days our kids are more internet savvy than we are; they know how to unblock privacy settings or get around simple parental controls. Yet more and more frequently there are stories in the news about children being victims of internet crime, whether through Facebook, party invites, cyber bullying or worse, child grooming. But what can we do about it? As parents, we have a duty to understand the different media our children use and put in place boundaries and guidelines to protect them. Is Your Child Safe Online has the practical advice you need to minimise the risk and ensure your child is protected today whilst still letting them do their homework. Covering all forms of new media, iPhones, apps, iPads, twitter, gaming online as well as social networking sites, Is Your Child Safe Online keeps you informed of the dangers and reassures with simple, straightforward advice. It arms you with practical methods to make sure your child is safe. All your questions answered: Do children get any guidelines at school on internet use? How do children use social networks, chatrooms, instant messaging and blogs? How do I control what my children look at online or what information they give out? What are the effects of time spent online on mental health and social life? How do I educate my children on how they can protect themselves against cyber bullying and grooming? Give yourself peace of mind with Is Your Child Safe Online, the book that every careful parent should own. The facts speak for themselves. In the last three years, the number of children belonging to a virtual world has increased from 8 million to 20 million. One in five children aged five to seven are accessing the internet without parental supervision. Make sure YOUR child is safe online.

Staying Safe in a Wired World Rob Nickel, 2006. In the world of the Internet, you can never be too safe. That is why Rob Nickel, a 14-year veteran of the Ontario Provincial Police, put his knowledge of Internet crimes to use in this information-packed book that will help parents keep their children safe in a wired world. After working 7 years online undercover, dealing with predators who try to harm our children, Rob took his experiences and put together an Internet Safety book like no other. He uses investigations from his past to help teach parents the dangers that are lurking online and give them the tools they need to keep their kids buckled up on the Information
