

Life Is

Mother Teresa

Life is an opportunity, avail it.

Life is a beauty, admire it.

Life is bliss, taste it.

Life is a dream, realize it.

Life is a challenge, meet it.

Life is a duty, complete it.

Life is a game, play it.

Life is costly, care for it.

Life is a wealth, keep it.

Life is love, enjoy it.

Life is mystery, know it.

Life is a promise, fulfill it.

Life is sorrow, overcome it.

Life is a song, sing it.

Life is a struggle, accept it.

Life is a tragedy, brace it.

Life is an adventure, dare it.

Life is life, save it!

Life is luck, make it.

Life is too precious,

do not destroy it.

Lyric Orientations Hannah Vandegrift Eldridge, 2016-01-18 In *Lyric Orientations* Hannah Vandegrift Eldridge explores the power of lyric poetry to stir the social and emotional lives of human beings in the face of the ineffable nature of our mortality She focuses on two German speaking masters of lyric prose and poetry Friedrich Hlderlin 1770 1843 and Rainer Maria Rilke 1875 1926 While Hlderlin and Rilke are stylistically very different each believes in the power of poetic language to orient us as social beings in contexts that otherwise can be alienating They likewise share the conviction that such alienation cannot be overcome once and for all in any universal event Both argue that to deny the uncertainty created by the absence of any such event or to deny the alienation itself is likewise to deny the particularly human condition of uncertainty and mortality By drawing on the work of Stanley Cavell who explores how language in all its formal aspects actually enables us to engage meaningfully with the world Eldridge challenges poststructuralist scholarship which stresses the limitations even the failure of language in the face of reality Eldridge provides detailed readings of Hlderlin and Rilke and positions them in a broader narrative of modernity that helps make sense of their difficult and occasionally contradictory self characterizations Her account of the orienting and engaging capabilities of language reconciles the extraordinarily ambitious claims that Hlderlin and Rilke make for poetry that it can create political communities that it can change how humans relate to death and that it can unite the sensual and intellectual components of human subjectivity and the often difficult fragmented or hermetic nature of their individual poems
