Maths Pmemo June 2015:

Pathways to Reform Alexandra W. Logue, 2017-09-08 A personal account of the implementation of a controversial credit transfer program at the nation's third largest university Change is notoriously difficult in any large organization Institutions of higher education are no exception From 2010 to 2013 Alexandra Logue then chief academic officer of The City University of New York led a controversial reform initiative known as Pathways The program aimed to facilitate the transfer of credits among the university's nineteen constituent colleges in order to improve graduation rates a long recognized problem for public universities such as CUNY Hotly debated Pathways met with vociferous resistance from many faculty members drew the attention of local and national media and resulted in lengthy legal action In Pathways to Reform Logue the figure at the center of the maelstrom blends vivid personal narrative with an objective perspective to tell how this hard fought plan was successfully implemented at the third largest university in the United States Logue vividly illustrates why change does or does not take place in higher education and the professional and personal tolls exacted Looking through the lens of the Pathways program and factoring in key players she analyzes how governance structures and conflicting interests along with other institutional factors impede change which Logue shows is all too rare slow and costly In this environment she argues it is shared governance combined with a strong central decision making authority that best facilitates necessary reform Logue presents a compelling investigation of not only transfer policy but also power dynamics and university leadership Shedding light on the inner workings of one of the most important public institutions in the nation Pathways to Reform provides the first full account of how despite opposition a complex higher education initiative was realized All net royalties received by the author from sales of this book will be donated to The City University of New York to support undergraduate student financial aid

Diversity, Inclusion, Equity and the Threat to Academic Freedom Martín López-Corredoira, 2022-09-05 There can be no doubt that discrimination based on sex race ethnicity religion or beliefs should not be tolerated in academia Surprisingly however in recent years policies of Diversity Inclusion and Equity DIE officially introduced to counteract discrimination have increasingly led to quite the opposite result the

exclusion of individuals who do not share a radical woke ideology on identity politics feminism other gender activisms critical race theory etc and to the suppression of the academic freedom to discuss such dogmas This subversion of academia disguised Trojan horse style as universal human rights advocacy is unacceptable because academia must be politically neutral and protect freedom of speech a cornerstone of professional scholarly activity without which universities as we know them will slowly but surely suffocate Our purpose here is to put together some particularly illustrative cases of such repression in a single book testifying to a ubiquitous trend within western culture irreducible to a few isolated complaints The essays contained here illustrate the abuse of power censorship and witch hunts at many universities and research centres in the name of DIE List of coauthors in alphabetical order Dorian Abbot Tomonori Agoh Gerhard Amendt Ivar Arpi David Benatar Peter Boghossian Civitas Research Team David D az Pardo de Vera Pedro Domingos Janice Fiamengo tienne Forest Jorge Gibert Galassi Norman Goldstuck Jos L Gonz lez Quir s Lawrence M Krauss Patrick LaBelle Mart n L pez Corredoira Heather Mac Donald Martin Malmgren Jordan Peterson Constantin Polychronakos Erik J Olsson Philip C Salzman Alessandro Strumia Tom Todd Andrei Yafaev
