Matlab Code For Feature Extraction:

Rapid BeagleBoard Prototyping with MATLAB and Simulink Dr. Xuewu Dai, Dr. Fei Qin, 2013-10-25 This book is a fast paced guide with practical hands on recipes which will show you how to prototype Beagleboard based audio video applications using Matlab Simlink and Sourcery Codebench on a Windows host Beagleboard Embedded Projects is great for students and academic researchers who have practical ideas and who want to build a proof of concept system on an embedded hardware platform quickly and efficiently It is also useful for product design engineers who want to ratify their applications and reduce the time to market It is assumed that you are familiar with Matlab Simulink and have some basic knowledge of computer hardware Experience in Linux is favoured but not necessary as our software development is purely on a Windows host

A Beginner's Guide to Image Shape Feature Extraction Techniques Jyotismita Chaki, Nilanjan Dey, 2019-07-25 This book emphasizes various image shape feature extraction methods which are necessary for image shape recognition and classification Focussing on a shape feature extraction technique used in content based image retrieval CBIR it explains different applications of image shape features in the field of content based image retrieval Showcasing useful applications and illustrating examples in many interdisciplinary fields the present book is aimed at researchers and graduate students in electrical engineering data science computer science medicine and machine learning including medical physics and information technology

Comprehensive Remote Sensing Shunlin Liang, 2017-11-08 Comprehensive Remote Sensing Nine Volume Set covers all aspects of the topic with each volume edited by well known scientists and contributed to by frontier researchers It is a comprehensive resource that will benefit both students and researchers who want to further their understanding in this discipline The field of remote sensing has quadrupled in size in the past two decades and increasingly draws in individuals working in a diverse set of disciplines ranging from geographers oceanographers and meteorologists to physicists and computer scientists Researchers from a variety of backgrounds are now accessing remote sensing data creating an urgent need for a one stop reference work that can comprehensively document the development of remote sensing from the basic principles modeling and practical algorithms to various applications Fully comprehensive coverage of this rapidly growing discipline giving readers a detailed overview of all aspects of Remote Sensing principles and applications Contains Layered content with each article beginning with the basics and then moving on to more complex concepts Ideal for advanced undergraduates and academic researchers Includes case studies that illustrate the practical application of remote sensing principles further enhancing understanding

sounds in the form of computer algorithms and sound examples resulting from these transformations Brings together essential DSP algorithms for sound processing providing an excellent introduction to the topic **Innovative Trends in Computational Intelligence** Ravi Tomar,Manolo Dulva Hina,Rafik Zitouni,Amar Ramdane-Cherif,2021-11-29 This book addresses the key problems that computational intelligence aims to solve including i the involved computational process might be too complex for mathematical reasoning ii it might contain some uncertainties during the process or iii by nature the computational process is a randomly determined one heuristic The contributors make use of methods that are close to the human s way of reasoning that is available information might be inexact or incomplete yet it would be able to produce controlled actions in an adaptive way Approaches presented in the book include swarm intelligence artificial immune systems image processing data mining natural language processing text mining and other solutions involving artificial intelligence methodologies *Airborne LiDAR Reflective Linear Feature Extraction for Strip Adjustment and Horizontal Accuracy Determination* Charles K. Toth,2009

ODOT s Office of Aerial Engineering OAE has been using an Opetch 30 70 ALTM airborne LiDAR system for about four years The introduction of LiDAR technology was a major development towards improving the mapping operations The overall experiences are excellent as evidenced by numerous projects where highly accurate surface data were produced in an unprecedentedly short time As is typically with new technology OAE has identified areas for improvements in terms of achieving better accuracy and increasing data processing efficiency In particular the horizontal accuracy of the LiDAR product required further attention The objectives of this research were to 1 introduce ground control to LiDAR by using road pavement markings that can be precisely surveyed by ODOT s system 2 perform a strip adjustment for seamless integration of strips into the final product 3 improve the horizontal accuracy in order to better characterize the final product and 4 improve accuracy both horizontal and vertical to use ground control that is less labor intense requires no or limited surveying and imposes less restrictions in normal field operations **Energy and**

Environmental Aspects of Emerging Technologies for Smart Grid Surender Reddy Salkuti,2024-05-24 This book presents mathematical models of various renewable energy sources RESs such as wind energy systems solar PV systems battery energy storage systems pumped storage hydropower biomass and electric vehicles EVs It also discusses the challenging task of the integration of high penetration of renewable energies and EVs within existing power systems The uncertainty related to RESs electric vehicle charging and load demands is also modelled The book provides illustrative and comprehensive practical case studies to enable a complete understanding of the proposed methodologies This book will consider the nuances of all these new paradigms smart grid components technology and the impact of energy storage EVs and distributed energy resources in the power networks **Kernel Methods for Pattern Analysis** John
